

# Course Title: NEcom (neighbourhood & community) social app

## Description of App:

- Seniors would create an account on app **Necom**
- In the chat, it allows to **message current friends** or **chat anonymously** (where profile is hidden)
- Allows to see **events near** the location of **their neighborhood or their home**
- To **add friends** or **match with someone** of the same interests they put into the cog wheel
- **Profile** page for them

## Free event upon joining from the app:

- Every **Friday 130pm to 4pm**
- Food based event between **elderly & youths.**
- Less cooking more on the **decorating** side
- **Cupcakes** are used to be decorated
- Elderly & youths group together based on a **theme**
- Compete with other similar teams
- Winner wins a **reward** of a **pot of plant cactus**
- Can be **sponsored** by brands
- Food used can be **donated to people in need**
