

# SLIMLINE CAGES

*Offer Accessibility, Control and Value*

Safeguard data center colocation cabinets with an additional enclosure.

*Moving critical assets to a service provider can lead to concerns about securing and auditing physical access that may have previously been within 100% control of the organization.*

*A SlimLine Cage for colocation from Expedient offers accessibility, control and value by creating a third layer perimeter around critical information technology assets.*

## FEATURES AND BENEFITS

**ACCESSIBILITY** – roll-up doors provide access from any angle to maintain consistent airflow supporting hot/cold aisle configurations

**CONTROL** – electronic lock options record access by Expedient personnel for granular audit logging useful for a variety of industry and government compliance mandates

**VALUE** – the construction profile closely matches the cabinets it surrounds to minimize the square footage (up to 40% savings), providing considerable cost control

## TAILORED COMPONENT ASSEMBLY

- ▶ Rugged Construction
- ▶ Flexible Configuration (*starting with as few as 4 cabinets*)
- ▶ Rapid Delivery (*weeks instead of months as compared to traditional cages*)
- ▶ Electronic Locking (*optional*)

## STANDARD SECURITY CONTROLS

- 24x7x365 On-Site Expedient Staff
- Visitor Identity Authorization
- Best-Practice Identification Badging
- Biometric Access Control Perimeter Managed by Expedient Staff
- Video Surveillance with Best-Practice Retention

**CREATE A THIRD LAYER PERIMETER  
AROUND CRITICAL INFORMATION  
TECHNOLOGY ASSETS**

## ABOUT EXPEDIENT

Expedient combines data centers, network access and managed services to deliver and support information technology infrastructure as a service (IaaS) solutions. The company maintains an environment of operational excellence—freeing clients to focus on strengthening their own differentiators.

### ENGAGEMENT OPPORTUNITIES

- Acquiring Another Business
- Changing Staff
- Launching a New Product
- Moving Office Locations
- Performance Improvement
- Refreshing Technology
- Service Interruption
- Spinning Off a Business

### COMMON VERTICALS WE SERVE

- eCommerce/Retail
- Financial
- Manufacturing
- Healthcare
- Professional Services
- Software as a Service (SaaS)

THE OUTCOME YOU'RE LOOKING FOR<sup>SM</sup> ALIGNS WITH EACH UNIQUE ORGANIZATION'S GOALS. TRUST EXPEDIENT AS THE TECHNOLOGY COLLABORATOR FOR YOUR DESIRED BUSINESS OUTCOME. A SLIMLINE CAGE DELIVERS THESE OUTCOMES:

## RISK MITIGATION

### COMPLY WITH INDUSTRY AND GOVERNMENT MANDATES

A cage is sometimes preferred when Payment Card Industry Data Security Standard (PCI DSS), Health Insurance Portability and Accountability Act (HIPAA) or other industry and government mandates apply.

## COST CONTROL

### LOWER TOTAL COST OF OWNERSHIP (TCO)

Minimizing the total square footage occupied by the cage surrounding each cabinet preserves space, resulting in a lower monthly expense.

### MANAGED SERVICES

- Backups
- ▶ **Compliance & Security**
- Disaster Recovery
- Network Access
- Storage

### INFRASTRUCTURE AS A SERVICE

- Cloud
- ▶ **Colocation**
- Connectivity
- ▶ *Applicable service categories*

*The SlimLine Cage is a patent-pending innovation from Expedient.*
