

A CLOUD OF YOUR OWN

DELIVERS MAXIMUM CONTROL AND PERFORMANCE

Isolate computing workloads of critical importance in a private cloud.

WHY PRIVATE CLOUD?

- Data is sensitive and/or subject to government or industry regulation.
- Hardware refresh cycles can interrupt operations.
- The need for flexibility as a result of varying workload types is increasingly leading to a hybrid approach.
- Scalability is needed for changes in application usage and data growth.

BENEFITS OF PRIVATE CLOUD

- ▶ Convey confidence to key stakeholders with dedicated infrastructure.
- ▶ Eliminate many operational tasks from existing staff to get time back for other work.
- ▶ Reduce on-call requests for infrastructure problems.
- ▶ Avoid limitations due to skill gaps with existing staff.
- ▶ Match computing resource demand more closely with supply to reduce overall cost and maximize performance.
- ▶ Rely on continuously improved converged infrastructure to ensure interoperability with complementary services.

EXPEDIENT PRIVATE CLOUD SOLUTIONS PHYSICALLY SEPARATE CLIENT COMPUTING INFRASTRUCTURES ENABLING GRANULAR CONTROL OVER DEDICATED RESOURCES.

ABOUT US

Expedient combines data centers, network access and managed services to deliver and support information technology infrastructure as a service (IaaS) solutions. The company maintains an environment of operational excellence--freeing clients to focus on strengthening their own differentiators to compete and win in their markets.

ENGAGEMENT OPPORTUNITIES

- Acquiring Another Business
- Changing Staff
- Launching a New Product
- Moving Office Locations
- Performance Improvement
- Refreshing Technology
- Service Interruption
- Spinning Off a Business

COMMON VERTICALS WE SERVE

- eCommerce/Retail
- Financial
- Manufacturing
- Healthcare
- Professional Services
- Software as a Service (SaaS)

THE OUTCOME YOU'RE LOOKING FORSM ALIGNS WITH EACH UNIQUE ORGANIZATION'S GOALS. TRUST EXPEDIENT AS THE TECHNOLOGY COLLABORATOR FOR YOUR DESIRED BUSINESS OUTCOME. PRIVATE CLOUD DELIVERS THESE OUTCOMES:

AGILITY

RESPOND TO CHANGE FASTER

AVAILABILITY

PREVENT UNPLANNED DOWNTIME

COST CONTROL

PREDICT MONTHLY OPERATIONAL EXPENSE

RISK MITIGATION

COMPLY WITH INDUSTRY AND GOVERNMENT MANDATES

MANAGED SERVICES

- Backups
- Compliance & Security
- Disaster Recovery
- Network Access
- Storage

INFRASTRUCTURE AS A SERVICE

- Cloud
- Colocation
- Connectivity

POWERED BY:
