The New Agenda for Kentucky was developed by a task force that was convened by the Kentucky Chamber of Commerce but operated independently of the Chamber's policy development process.

The Nation Is Taking Notice

Kentucky is leading the nation in broadband deployment.

The word of ConnectKentucky's remarkable success is spreading. Together, we have accomplished much, but our work is far from over. Now we're increasing demand for broadband and implementing the necessary programs to ensure Kentucky remains the place of choice to live, work and raise a family.
