

March of Dimes Canada and Spinal Cord Injury Ontario announce transition of Outreach Attendant Services for clients in Toronto

November 12, 2019 - March of Dimes Canada (MODC) and Spinal Cord Injury Ontario (SCIO) are pleased to announce that all Outreach Attendant Services currently provided by SCIO will transition to MODC on April 1, 2020.

MODC has a long history of collaboration with SCIO and the organizations share a common philosophy around the promotion of independent living, inclusion and choice. With these principles as our guide, MODC and the SCIO management team are working together to ensure the smooth transition of Outreach Attendant Services clients and attendants.

As Ontario's largest provider of attendant care services, MODC is well-placed to support this transition. MODC's expertise and capacity will ensure that SCIO clients continue to receive uninterrupted, high-quality care. MODC will work with SCIO to leverage their expertise in service delivery and education as it relates to spinal cord injury to ensure knowledge transfer and a smooth transition.

SCIO has been supporting people living with spinal cord injury for 75 years, and will continue to do so through Peer Support, Regional Services, Knowledge Exchange, and Advocacy programs. MODC is a national organization that has been providing programs and services to Canadians living with physical disabilities for almost 70 years.

We look forward to providing further details as they become available.
