

Dear Heidi,

The big day is almost here! Our 2025 ReadingPals Conference & Celebration kicks off tomorrow and [there's still time to register](#).

We'll celebrate 13 years of ReadingPals and hear from Dr. Jason Yeatman of Stanford University. His keynote, *The Brain Science of Reading*, explores how the brain learns to read—and how we can better support young learners, especially those who struggle.

Whether you're a longtime volunteer or just getting started, we hope you'll join this inspiring celebration of early literacy champions.
