

Hi Heidi,

You once raised your hand for Florida's children – and that action still matters.

In the past few months, people like you have helped push early childhood issues to be included in Florida's agenda - whether in the Florida legislature, in local community meetings, or in our workplaces.

But there's more work ahead...

[Tell us what you want to hear more about](#)

Together, we're proving that when Floridians unite behind our youngest, everyone wins – families, employers, and communities.

Let's keep that momentum going!

With gratitude,

Madeleine
