

## Kansas City Aerial Arts - Camp copy

### Circus Camps

Circus camp sign ups are now open! These camps are perfect for your children, aged 7-14, to start their day with exercise while making new friends. Over the course of five days, your child will gain all of the strength and skills necessary to perform a circus camp showcase, no experience required. Showcases are tailored to the students and theme of each week, so students are met at their level and may attend multiple camps over the course of the summer.

### Aerial Excel Camps

Is your child in a Level 1 class or higher? Aerial Excel camps are the perfect opportunity to push their skills in a unique way. From 1:00-4pm your child, aged 7-18 years, will channel their afternoon energy into challenging creative endeavors. Advanced students will have opportunities to tailor activities to help achieve their goals, including prepare for Training Company auditions. This camp will culminate in a self-choreographed solo aerial performance for a community audience.

Spread the love this Valentine's Day and give your student the gift of knowledge with our Early Bird Discount through 2/14!
