Get There Faster Veterans and Military Spouses Program

## Program Overview

The Get There Faster (GTF) Veterans and Military Spouses program provides targeted, in-demand employment opportunities through career services, training, and support services to military veterans, transitioning service members, and spouses of active-duty military or veterans facing barriers to employment, with a focus on homeless and disabled veterans.

## Program Priorities and Goals:

Increase awareness of the Get There Faster Veterans and Military Spouses Program among veterans and military families in Florida; and increase the number of veterans and military spouses and family members that enter employment in Florida.

## Services:

Career services provided through this program include determining eligibility, offering orientation to available resources, assessing skill levels and supportive service needs, providing job search assistance, career counseling, referrals to other programs and follow-up support for those placed in employment.

Training services are tailored to individuals' career goals and may include assessments, career planning, and access to programs directly linked to local employment opportunities. Eligibility is determined based on an evaluation of the individual's need for training and their ability to participate effectively in the selected program. Examples: Occupational skills training, apprenticeships, on-the-job training.

Other services are offered such as transportation, dependent care, housing, and needs-related payments, that are necessary to enable an individual to participate in training and employment activities. This includes accessing military benefits, mental health counseling, legal services, and training-related costs like uniforms/books.
