Caring for Our Communities Quarterly Newsletter

February 2025

Watch a video about how Intermountain Health connects with our communities through volunteering and engagement.

Our Community Impact is Life-Changing

I am pleased to present the significant transformations that have occurred in our communities over the past year. Our programs provide invaluable assistance to the individuals we support. In this newsletter, you will find both impactful data and compelling stories. Additionally, you will gain insight into the needs of the communities who depend on us and our collaborators to help them live the healthiest lives possible. Thank you for taking the time to read our *Caring for Our Communities* newsletter.

Megan Mahncke

Chief Marketing and Communications Officer and President of the Intermountain Community Care Foundation

1,310

Community organizations engaged across five states to work alongside Intermountain to address identified significant health needs.

Together, we are addressing significant health needs in each of our communities, including access to care, mental well-being, social determinants of health, chronic and avoidable disease, and child and family well-being.

Lives reached through Intermountain Health’s community improvement.

Dominique Felton is just one person whose life was changed in 2024. Hear Dominique’s story and how the Intermountain Community Health team used robust data to determine the impact of the program. Today, this Intermountain Health community project in rural Sanpete County Jail is now a sustainable program and is being duplicated in other areas.

Naloxone kits distributed and 56 events hosted by the Opioid Education and Naloxone Distribution program in Utah and Idaho.

Intermountain is working to reduce opioid deaths, along with the stigma and barriers that often prevent people from seeking help. We set a record in 2024 for distribution of naloxone kits. Learn about the program and how you can request a group naloxone training.

Car seats properly fitted, and 1,602 car seats provided free of charge to families in need.

Child safety advocates at Intermountain Children’s Health are seeing a rise in the number of parents unknowingly purchasing counterfeit car seats online for their children. Find out how you can protect your own family and get involved.

\$19.5 million

Committed to Place Based Investing to support the development of local affordable housing and economic development.

Intermountain acts as an anchor institution as we consider hiring, investing, caregiver volunteerism, and environmental sustainability. For example, Intermountain provided investment capital of \$4 million to NeighborWorks Montana, a nonprofit organization that creates housing opportunities across the state. Read how three different projects were funded to support housing in Yellowstone County.
