

What Is World Refugee Day?

This international day, held annually on June 20, honors the millions of individuals who have been forced to flee due to conflict, persecution or disaster. Every year, Unto[®] works to raise awareness about the suffering of refugees while also providing them with help and hope.

The Opportunity

As part of Unto's World Refugee Day digital campaign, we are seeking partners to help provide a \$5,000 matching gift. Historically, we have seen giving more than double when a match is available. Your participation as a matching gift partner will encourage other donors to give generously to help those who are suffering and displaced.

The Impact

Together we can raise awareness about the plight of refugees. We can also help by providing Refugee Hope Kits. Each kit is customized by our field teams according to the needs of those receiving it and includes items like:

Meals

Refugee families often struggle to access adequate nutrition. Your generosity can provide them with lifesaving meals.

Clean Water

People in refugee camps often lack access to clean water. Your support can provide water filters to protect them from dangerous waterborne illnesses.

Critical Aid

Refugees lack life's most basic items. Your generosity can provide tarps for shelter, blankets, clothing and hygiene supplies.

We invite you to be a matching gift partner for the 2026 World Refugee Day digital campaign. Your generosity will inspire others to give generously while meeting the physical and spiritual needs of refugees living in the toughest places.
