Not your Grandfather's Mountains

Make your parents happy and visit your grandfather over spring break

LINVILLE, N.C. – Grandfather Mountain is the Spring break attraction for any college student who needs to escape the stress of school. Located in the Great Smoky Mountains, this attraction should be at the top of your list for spring break trips. The beautiful mountain is less than a three-hour drive from Elon and costs less than the typical Florida getaway. So instead of partying with strangers, make lasting connections in a zen, calming and educational environment.

Grandfather Mountain provides stimulating activities and educational opportunities to enrich your experience. Their daily programs and many animal encounters and hiking trails create stunning views in addition to the wildlife around you. Their famous Mile High Swinging Bridge is the highest suspension footbridge in America and the perfect photo opportunity. The Wildlife Habitats, Nature Museum, and the anticipated Wilson Center opening the Summer of 2022.

“And this is always an incredible time of year, as the mountain springs to life with warm weather, friendly faces and new things to do,” communications manager for the Grandfather Mountain Stewardship Foundation, Frank Ruggiero, said.

To take further action: Visit grandfather.com/tickets/ to buy tickets or make a reservation.

GRANDFATHER MOUNTAIN STEWARDSHIP FOUNDATION: Founded in 2006, GRANDFATHER MOUNTAIN STEWARDSHIP FOUNDATION provides educational programs, hiking trails and wildlife habitats.
