

Ron Scarboro LinkedIn Post – Dublin Office

Azurity in Dublin!

I'm ecstatic to announce the opening of our new Dublin office. Located in a prime spot in the city, the 6,000 square foot office can accommodate up to 40 colleagues as we continue expanding across the European and international pharmaceutical markets.

Establishing a presence in Ireland, the EU's only native-speaking country, positions us to attract top-tier pharmaceutical talent alongside our colleagues in Zug.

Thank you to everyone who made this office possible. This office represents far more than a new location—our teams will continue to make an impact supporting patients all around the world.
