

Diamonds in the Ruff

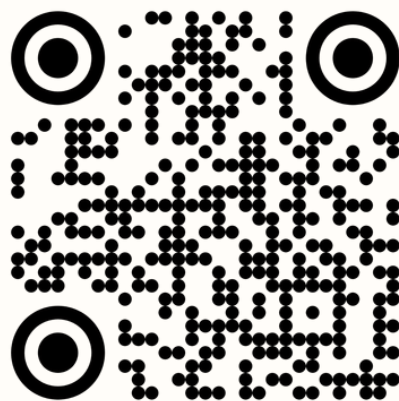

A "Diamond" is a dog with medical or behavioral needs that require time, care and resources which go beyond the scope of what a typical shelter can provide.

These vulnerable dogs often risk losing their lives in public shelters, as many facilities are unable to nurture them to an adoptable state.

HLCR's Diamonds in the Ruff program provides the individualized attention, treatment and rehabilitation necessary to ensure these special dogs can heal and be placed into loving, permanent homes.

Until they find their
forever homes

HLCR is committed to rescuing, rehabilitating, and securing loving and healthy forever homes for abandoned dogs in the Texas Hill Country.

Highland Lakes Canine Rescue has been rescuing dogs since 1999.

More Than a Shelter

The majority of our dogs come to us with medical and behavioral challenges, and we meet them where they are, providing the focused care and support they need to heal and thrive with their future families.

No Kill Means No Kill

Once a dog enters our care, they're safe. We never euthanize for space, treatable conditions, or convenience. Otherwise, dogs stay with us for as long as it takes to find their forever home.
