

# Gift of Nature

Sino Land's luxurious low-density, Mediterranean resort-style residences in Sai Kung offer residents the perfect gift of nature. Located close to Sai Kung town centre and Waterfront Park, this relaxing seaside community is ideal for those looking for a tranquil sanctuary to call home.

The sumptuous clubhouse offers an expansive view of the 45-metre-long swimming pool through its transparent glass walls. Seamlessly connecting the outdoors and indoors, the Poolside Lounge and Evergreen Banquet Room offer a gorgeous vista of the refreshing pool and lush greenery.

Residents can spend a leisurely afternoon with friends at Co-leisure Space or engage in the fun of horticultural activities such as hydroponics in The Green House with their children.

Aspiring to craft a better living environment for owners, The Mediterranean features vast outdoor spaces, with verdant gardens occupying over 30 percent of the total development area. A professional landscape team has blended the unique design into this natural environment by planting over 70 species of Hong Kong flora in Forest Walk.

Whether meandering along the Forest Walk or relaxing at the vibrant Artist's Corner, nature and art abound for residents to appreciate.
