Ancient Stone / Nächtlich (2021)

Black Gangrene Productions · 2021

The true spirit of Underground Black Metal is worshipped on a joint venture between two Canadian hordes. Ancient Stone ravishes the ether with a collection of short, fast and savage songs. Minimal and primitive, this side of the LP is an accurate representation of the band's blueprint: vicious Black Metal with maniacal riffing, disquiet vocals and a visceral sense of rawness and disgust.

Nächtlich are major creators of Raw Black Metal with a genuinely arcane feeling. Masterfully balancing an ancient aura with the atmosphere of pure hatred, the duo's music gleams with memorable riffs, ferocious rhythmic outbursts and cruel vocals, definitively achieving a suffocating aura of dread with the character and brilliance representative of the band's material over the years.
