Years Deprived (2021)

Black Gangrene Productions · 2021

Within a one-year period, the body of work crafted by Valac unveiled a vast potential in the crafting of genuine abyssal raw Black Metal. The band's second demo, "Years Deprived", projects a sinister aura right from its very start invoked by ominous chords and spectral wails, an atmosphere shaped by a lo-fi and involving sound, as ghostly as the music created. While the production is crude and unpolished, it holds perfectly with the dynamic arrangements that enrich the musical pallet of this demo, from fast piercing riffing to rhythmic changes marked by more atmospheric and menacing chords, a wide spectrum of pure darkness that shall feast any and all Raw Black Metal aficionados.
