

## ANOTHER STAR

Holy night, silent night  
echoes and silent the ringing bells in my head

Holy night, silent night  
echoes and silent the music of my heart

Holy night, silent night  
echoes and silent the murmurs of their mouths

Holy night, silent night  
starlight, bright and shiny burning love and passion for him

Holy night, silent night  
starlight, bright and shiny breathing is hard, living is hurting

Holy night, silent night  
starlight, bright and shiny wishing to be childish

Holy night, silent night  
supernova is the situation

Holy night, silent night  
the pandora box has been open

Holy night, silent night  
the Big Bang has arisen

Holy night, silent night  
my body joining your stargazed sky.
