YELP:

Habit Burger

5/28/2026

- They're not as famous or recognized as McDonald's or Burger King, yet for the price of quality and taste, Habit Burger is above the best. Their succulent burgers, such as the Teriyaki Char with cheese, are blanketed with caramelized onions, grilled pineapples, and white American cheese on a fresh toasted bun. If you haven't tried one, now is the time.

While you're there, pick up one of their signature sandwiches, like the sirloin steak. Char-grilled garlic-herb steak with aged white cheddar cheese on toasted sourdough. This delicious meal contains only 760 calories. Not a fan of beef; how about chicken? Their char-grilled chicken sandwich is to die for. Five hundred and fifty calories of appetizing char-grilled chicken breast, caramelized onions, melted cheese, and BBQ sauce on a toasted wheat bun.

There's even something for the vegetarians: fresh salads and veggie burgers. How about ending a wonderful, affordable meal with a dessert of flavored shakes and sundaes? There's something for everyone here. So come on down to Habit Burger; you'll never be disappointed!

Ralphs Fresh Fare (Valencia)

- The products sold at Ralph's are delightful and delicious. The premier grocery store that even allows you to dine in-store. From affordable prices to excellent customer service, Ralph's has it all. It's the reason you're missing out on great deals and quality produce. Go now to Ralph's. There's always someone there to help.

Probe Market Research

6/8/2026

- Research markets offer a great way to earn money while helping others, and Probe Research excels at both. Recently, I participated in a study about AI's ability to detect motion sensations. The experience was enjoyable--not only was it conducted outdoors, but the sunny Los Angeles weather made it even better, with a perfect 80-degree day.

If you're hesitant about signing up, don't be. I've been working with this friendly and polite company for years. The best part is that you get paid within three days after completing the study. It's a rewarding and reliable opportunity.

TRUSTPILOT:

Target

5/26/2026

Headline: TARGET HIT THE BULLSEYE WHEN IT COMES TO SHOPPING.

- If you're a fan of Walmart, you'll love Target's clean, refreshing, and upscale environment. It's the place to go for great prices and Starbucks coffee. Don't miss out on the fun—head there now! What I love about Target is its wide-open shopping lanes and large variety of products, often priced lower than competitors. I've been a fan for years because shopping at Target feels like being at home. For a true "home" shopping experience, choose Target. And if you prefer shopping online, Target's website is affordable and easy to use. Either way, Target offers the best retail experience.

Whole Foods Market

5/26/2026

Headline: WHOLE FOODS OR WHOLE PAYCHECK? YOU DECIDE.

- We often joke that Whole Foods feels like it's taking "whole" paychecks because of high prices for quality food. But that's not always true—and it might be stopping you from shopping at a store that truly cares about your health.

Take the delicious Honey Crisp apple as an example, Whole foods competitors charge \$1.75 each per pound. Where Whole Foods charges \$1.54. Or how about the Kind Peanut butter clusters that cost \$6.85 for a 11 oz bag. And its competitors charge a little more-\$6.99 for the same size bag.

The point is, shopping at so-called "cheaper" grocery stores doesn't always mean every product is more affordable than at Whole Foods. Eating healthier can be costly, but is it worth it? I believe it is—and I recommend you shop at Whole Foods today!
