Subject: NEW Formula! More Energy. Better Skin.

Preview: Why researchers are calling "this" the future of healthy aging

From: Emerald Labs — support@emerald labs.com

Introducing NMN+ from Emerald Labs

Age is inevitable.
How you age isn't.

The cellular energy breakthrough that supports NAD⁺ from the inside out — now with clinically studied Red Orange Complex™ for skin you can see.

Why NMN+

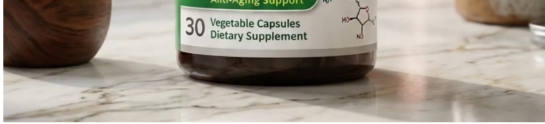

Your cells need more than a multivitamin.

NAD⁺ is the coenzyme behind virtually everything your cells do — energy production, DNA repair, inflammation control, and how gracefully you age.

The problem? NAD⁺ levels fall by up to 30% between ages 45–60, and brain NAD⁺ can drop 10–25% from young adulthood onward.*†

NMN (Nicotinamide Mononucleotide) is the most direct dietary pathway back to NAD. Our formula delivers it in a **liposomal delivery system** for maximum cellular absorption — then pairs it with the award-winning **Red Orange Complex™** from Sicilian blood oranges to address the visible signs of aging at the skin level.*†

What Liposomal NMN+ Supports

Cellular vitality & energy metabolism

NAD⁺ is essential for converting nutrients into cellular energy (ATP). Restoring NAD⁺ levels supports the mitochondrial function that declines with age.*†

DNA repair & protection

NAD⁺ fuels PARP enzymes — your body's primary DNA damage repair system — and activates sirtuins, proteins that regulate cellular aging and stress response.*†

Skin elasticity, moisture & radiance

Red Orange Complex™ is clinically shown to increase skin moisture, elasticity, and radiance while reducing wrinkle depth and UV-related dark spots.*†

Physical performance & aerobic capacity

A randomized clinical trial found NMN supplementation increased aerobic capacity in trained runners — likely by enhancing skeletal muscle oxygen utilization.

THE RESEARCH

Backed by peer-reviewed science

CLINICAL STUDY

"NMN dosages from 150–1,200 mg/day were well tolerated with no serious adverse effects across 10 studies and 437 patients — with a mean follow-up of 9.6 weeks."†*

Nadeeshani et al., Journal of Advanced Research, 2021

RANDOMIZED CONTROLLED TRIAL

"NMN increases the aerobic capacity of humans during exercise training — improvement is likely the result of enhanced oxygen utilization of the skeletal muscle."†*

Six-week RCT, 48 recreationally trained runners, four-arm placebo-controlled design

RED ORANGE COMPLEX™ — SKIN STUDY

"100 mg of Red Orange Complex™ was effective in counteracting the harmful effects of UV radiation and aging signs — improving antioxidant capacity, skin elasticity, moisturization, and radiance."†*

Randomized double-blind controlled study, 110 Asian and Caucasian subjects aged 35–55, 2022

INSIDE THE FORMULA

Two powerful ingredients. One complete formula.

NMN

Liposomal Nicotinamide Mononucleotide

A direct NAD⁺ precursor that converts rapidly upon ingestion. Our liposomal delivery system surrounds NMN in a phospholipid bilayer — mirroring your cell

NMN in a phospholipid bilayer — mimicking your cell membranes — to improve bioavailability and absorption compared to standard NMN.*†

ROC™ Red Orange Complex™ — Award-Winning Skin Ingredient

A standardized extract from three varieties of Sicilian blood oranges (Moro, Tarocco, and Sanguinello), standardized in anthocyanins, hydroxycinnamic acids, flavanones, and ascorbic acid. Clinically studied to reduce oxidative stress and support skin health during aging and UV exposure.

**Your cellular age
doesn't have to match your birthday.**

30 vegetable capsules. Vegan. Liposomal delivery. Anti-aging support at the cellular and skin level.*†
