Power of Artificial intelligence(AI)

The pictures presented below raise a potentially controversial topic to the surface. With the development of AI, the world is steering towards a future where robots are dominating human life. The book presented as the centerpiece of the pictures aims to focus on the metaphoric title which symbolizes the power of robots by comparing it to the power of 'gods'.

Shallow Depth of Field:

Canon 850D Camera:

Shutter speed 1/100 - aperture F5.0 - ISO 2000

Iphone camera:

Lack of human touch

Nationally and internationally, a vision of an independent generation of AI is yet to be reached because of the excessive use of technology. A picture of the “AI or NAY” exhibition is taken to express the rejection of the lack of human sense in our AI dominated lives as humans.

Deep Depth of Field:

Canon 850D Camera:

Shutter speed 1/30 - aperture F22 - ISO 6400

Iphone Camera:

Freedom of Animals

Animals, to be more specific Birds, are being held captive against their will by humans for the sake of having a pet. While some choose to photograph caged Birds, the pictures below were taken to raise awareness by embracing the beauty of the freedom of a Bird flying across the sky.

Frozen-Action Shot:

Canon 850D Camera:

Shutter speed 1/4000 - aperture F6.3 - ISO 500

Iphone Camera:
