Game Summary

Tottenham U21 vs Liverpool U21 (26/01/25)

Tottenham Hotspur U21s delivered a disciplined and controlled performance to secure a 2-0 victory over Liverpool U21s. Spurs were well-organized without the ball, limiting Liverpool's attacking threat and forcing them into wide areas with little penetration. Liverpool attempted to press and disrupt Spurs' build-up but struggled to create clear chances, partly due to Spurs' strong defensive work from wide areas. Spurs were effective in transition, carrying the ball into space and showing composure when under pressure, ultimately managing the game well and capitalizing on Liverpool's defenders' mistakes, especially during the second goal.

Player Profile – Yusuf Akhamrich

Name: Yusuf Akhamrich

Age: 20

DOB: Sept 5, 2005

Position: LW; RW; LWB

Height: 6'0

Preferred Foot: Left (comfortable using Right)

Nationality: Morocco

Current Club: Tottenham Hotspur

Contract Exp: June 30, 2028

Akhamrich is a product of the Tottenham Hotspur academy system, progressing through the club's youth pathway and currently featuring regularly for Spurs U21s in Premier League 2. He has developed into a physically strong wide player, trusted in a two-way role that requires both attacking output and defensive responsibility.

In November 2025, he was a substitute with the first team squad in the UEFA Champions League against FC Copenhagen, but remained an unused substitute. He was also named as a substitute on 8 November 2025 for Spurs match in the Premier League tie against Manchester United.

Operating primarily as a winger, Akhamrich has continued his development at U21 level, gaining experience against elite academy opposition and showing traits suited to the demands of senior football, particularly in terms of athleticism, work rate, and defensive contribution. His profile suggests a player approaching the stage where **first-team exposure via loan** would be beneficial to support the next phase of his development.

Technical: 7 / 10

Very good first touch and close control, particularly in tight spaces. Showed impressive micro-dribbling ability when pressed by two or three opponents, maintaining composure under pressure. After an error in possession (37'), responded positively, again demonstrating good close control and confidence on the ball.

Effective ball carrier into space, using long strides and pace to drive forward. Capable of striking the ball cleanly with his stronger left foot, highlighted by a powerful effort from a tight angle (60') that forced a save. Comfortable using his right foot when required.

Final-third decision-making can improve, with greater directness needed when opportunities arise.

Tactical 6.5 / 10

Displayed good tactical discipline, particularly in defensive phases. Regularly recovered to support his full-back, limiting Liverpool's ability to create overloads down his side. Read the game well, shown by multiple interceptions and well-timed tackles (48', 52').

Offensively, positioning remains an area for development. At times opted to recycle possession backwards rather than attacking space or making runs in behind. Needs to be more active in identifying open zones, especially when drawing multiple markers. Good chemistry noted with Irow (ST) and Hall (CAM), suggesting an understanding of combination play.

Physical 7 / 10

Strong physical profile for a wide player at 6'0. Excellent acceleration and long-distance pace, allowing him to recover defensively and carry the ball forward at speed. High work rate and stamina, consistently chasing opponents and contributing in defensive transitions.

Showed good tackling technique and timing, especially against Liverpool's #2, and made a crucial defensive block late in the game (82'). Physically looks capable of stepping into senior football, particularly in leagues demanding athletic, high-intensity wide players.

Mental 7 / 10

Displayed resilience and maturity, responding well after mistakes rather than becoming passive. Maintained concentration throughout and worked tirelessly both on and off the ball. Showed good awareness and anticipation, reading passing lanes and supporting the defensive structure effectively. Needs to develop greater attacking assertiveness and confidence to consistently impose himself in the final third.

Performance grade: 7 / 10

Potential: Middle / Lower PL; Top Championship 1st team ready: No Suitability: Primary - LW/RW in a 4-3-3 / 4-2-3-1; Secondary - Wingback in a 3-4-3

Conclusion: A disciplined and efficient performance. Liverpool's apparent tactical focus on limiting him suggests recognition of his threat.

Injury History – No injuries recorded

SWOT Analysis

Key Strengths	Weaknesses / Areas for improvement
- Strong physical profile for a winger (6'0) - Very good acceleration and long-distance pace - Effective in tight spaces despite size - High defensive work rate and tackling ability - Good ball-carrying into space - Comfortable with both feet	- Can be too conservative in possession - Needs to attack space and run in behind more frequently - Final-third decision-making - Offensive positioning between lines
Opportunities	Threats / Adaptability?
- Strong physical frame (6'0) with scope for further development through targeted strength and conditioning, particularly suited to the demands of senior football. - Age profile (20) provides significant upside, with room to refine attacking positioning, end product, and tactical understanding. - Exposure to first-team football via loan would accelerate development and clarify long-term role (winger / wing-back).	- Risk of stagnation at U21 level - Confidence if not encouraged to be more decisive offensively
