Hellen's Story

The name Hellen's derives from the word Hellenistic, the Mediterranean historical period in which Alexander the Great built an empire that stretched from Greece to India. During this era, Alexandria was the center of the Greek and Hellenistic world and also the center of international commerce, art, and science. For this reason, Alexandria has always been perceived as the Hellenistic center of the Mediterranean.

ABOUT US

THE STORY OF RHACTUS

The word Rhactus was originally derived from the word *Rhacotis*. It was the name of the city on the northern coast of Egypt in Alexandria. Some classical sources in the Greco-Roman era suggest that *Rhacotis* was the name of Alexandria before it was invaded by Alexander the Great. *Rhacotis* was easily accessible to large ships as it was located west of Canopus, the ancient Egyptian coastal town located in the Nile Delta.

The Greek geographer Strabo described Rhacotis as the home of Egyptian sentinels guarding the Nile.

Influenced by the story of *Rhacotis*, we decided to modernize the name to Rhactus.

WHY A BUSINESS HOTEL?

When we studied the area of El-Alamein to see how we can truly serve it, we noticed that in the winter it turns into a ghost town. Even though the area has become a business hot spot, there are very limited services. From here, we decided to be the very first – and till this moment the only – hotel that serves businesses in El-Alamein.
