Key Findings

Amazon Sponsored Brand campaigns saw impressive CVR growth (+26.5% YoY), as advertisers scaled their spend on these upper-funnel placements (+21.6% YoY) to drive brand awareness in an increasingly crowded marketplace.

On Walmart, Sponsored Brand ads delivered stronger engagement at a lower cost, with CTR improving (+75% YoY) and CPC falling (-15.6% YoY) despite advertisers increasing spend (+34.1% YoY) on the format.

Advertisers invested more in upper-funnel, brand-building strategies on Amazon DSP, where the spend share of Sponsored Video rose +20% YoY to capture almost a third of DSP advertising dollars in Q2.

Amazon shoppers prioritized essentials, as categories like Grocery & Gourmet (36.7% CVR), Pet Supplies (25.5% CVR) and Beauty & Personal Care (23.4% CVR) saw robust conversion rates in Q2, while advertisers allocated more of their budget to Sponsored Brand campaigns to promote these products.

Ad Format Trends

Q2 Retailer Trends

> “One of the biggest themes at Cannes Lions this year was retail media networks evolving into full-funnel advertising platforms. I suspect that as we move into the back half of 2026, we’ll see RMNs emphasize more upper-funnel formats--particularly video. Not only will on-site video become a more important part of the mix, but we will also see retail media power a growing percentage of social video, CTV, and in-store digital.”

Andrew Lipsman
Founding Advisor & Strategist, Colosseum Strategy

Amazon

Ad Format Trends

Amazon Sponsored Ads | **Ad Type Spend Share Over Time**

	2025 Q2	2025 Q3	2025 Q4	2026 Q1	2026 Q2
SD-Non Video	1.72%	1.66%	1.57%	1.27%	1.22%
SBV	5.63%	6.13%	5.87%	5.58%	5.09%
SB-Non Video	7.40%	7.64%	8.75%	8.35%	8.86%
SP	85.13%	84.49%	83.75%	84.74%	84.81%

Amazon DSP | **Video vs Static Format Spend Share**

	2025 Q2	2025 Q3	2025 Q4	2026 Q1	2026 Q2
Video	23.80%	25.26%	27.99%	30.82%	28.57%
Non-Video	76.20%	74.74%	72.01%	69.18%	71.43%

Across Amazon, advertisers shifted a growing share of investment toward upper- and mid-funnel formats. The shift is most pronounced on DSP, where video rose to 29% of spend from 24% a year earlier - leading a broader move toward brand-building investment.

CTR, CPC, CVR & ROAS

Retailer KPI Trends ▪ Amazon Sponsored Prompts

Just launched (03/25/26), Amazon Sponsored Prompts automatically engage shoppers with relevant product information, and the ad format already shows stronger profitability for Sponsored Brands ($11.64 Q2 2026) than Sponsored Products ($4.27 Q2 2026) campaigns, mostly driven by the former's lower CPC ($0.40 Q2 2026).

Sponsored Prompts | **Amazon US**

Quarter	Campaign Type	CTR	CPC	CVR	ROAS
2026 Q2	Sponsored Brand	0.08%	$0.40	10.67%	$11.64
2026 Q2	Sponsored Product	0.17%	$1.30	11.27%	$4.27

"Heading into H2, two shifts are top of mind. First is New York's new AI-disclosure law for advertising content. It will be worth watching whether this pushes brands back toward traditional production, and whether brands with existing, legitimately-shot content gain an edge over those that have leaned heavily on AI-generated assets. Second is the growing importance of GEO — making sure product content, descriptions, and titles are structured for AI-driven recommendations. As more shopping discovery happens through tools like ChatGPT, brands that adapt their content strategy for AI search will have a real advantage in discoverability."

John Warren
VP of Partnerships, Podean

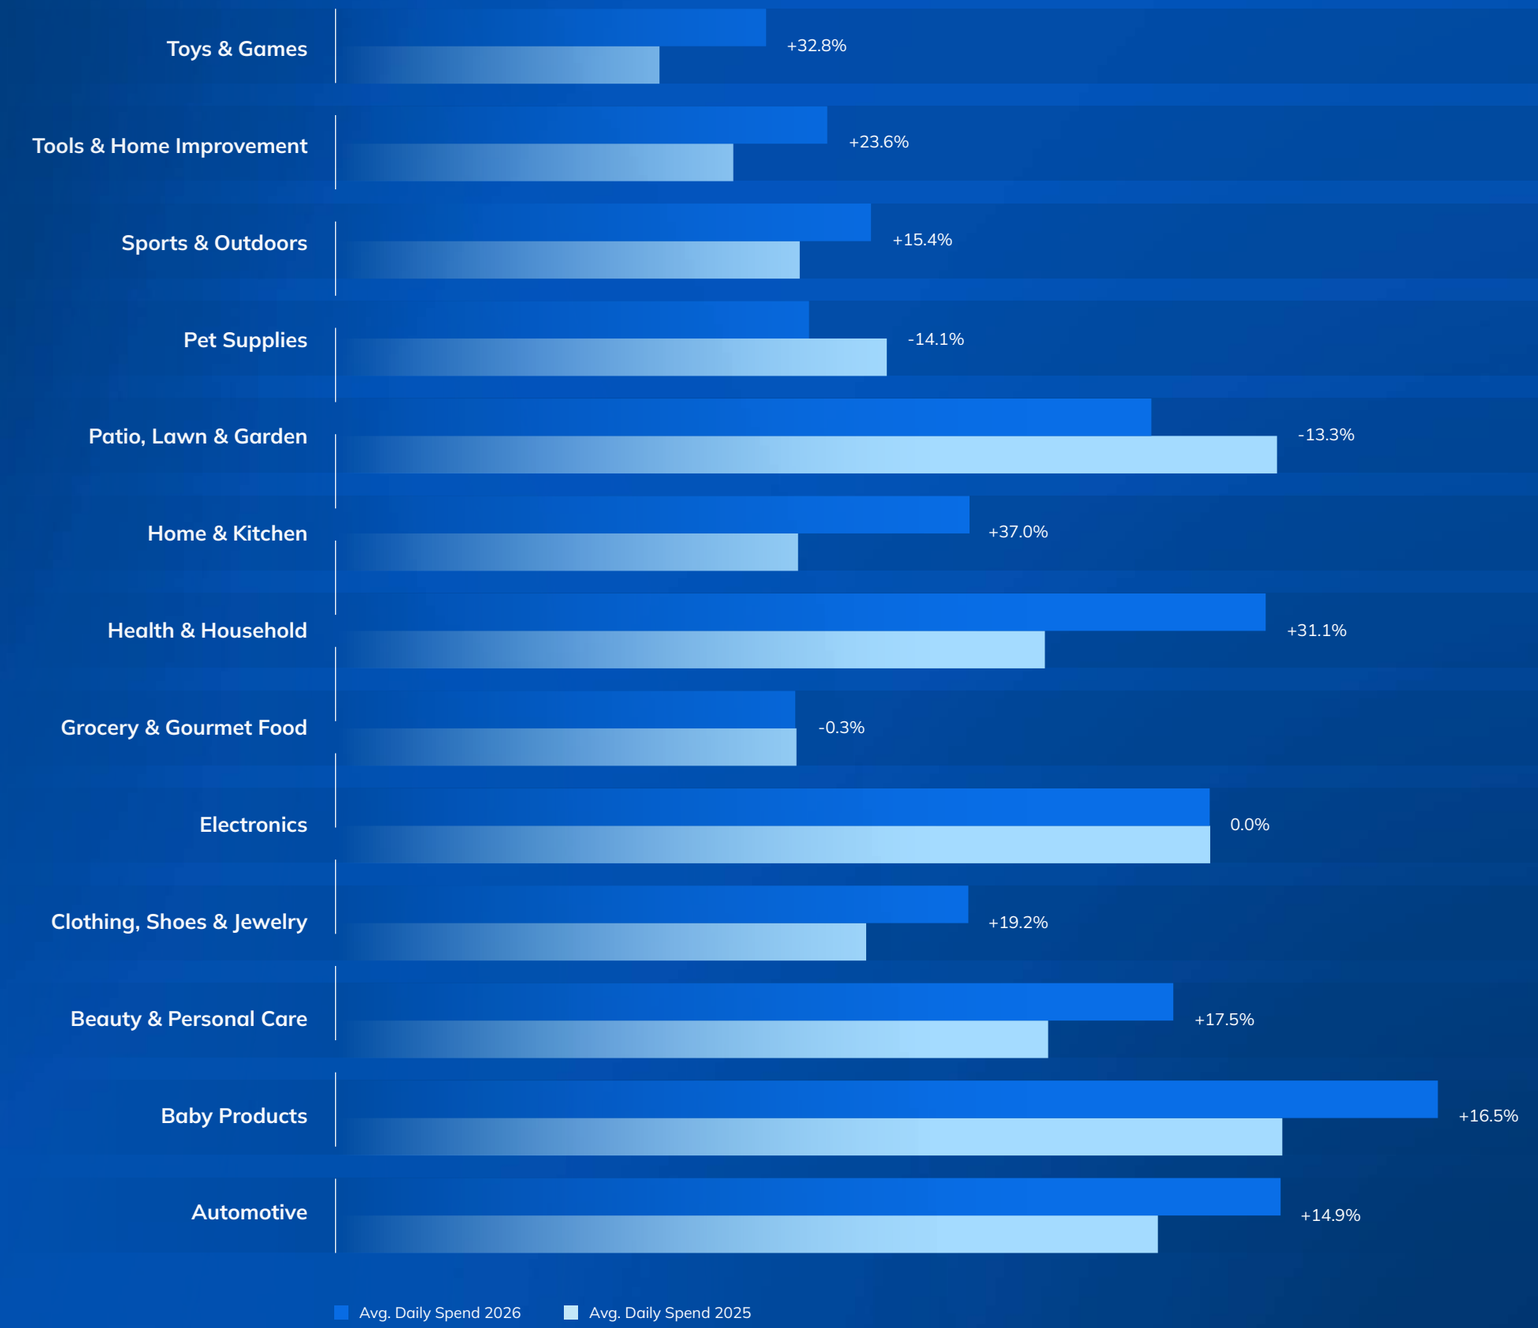
Amazon Category Trends

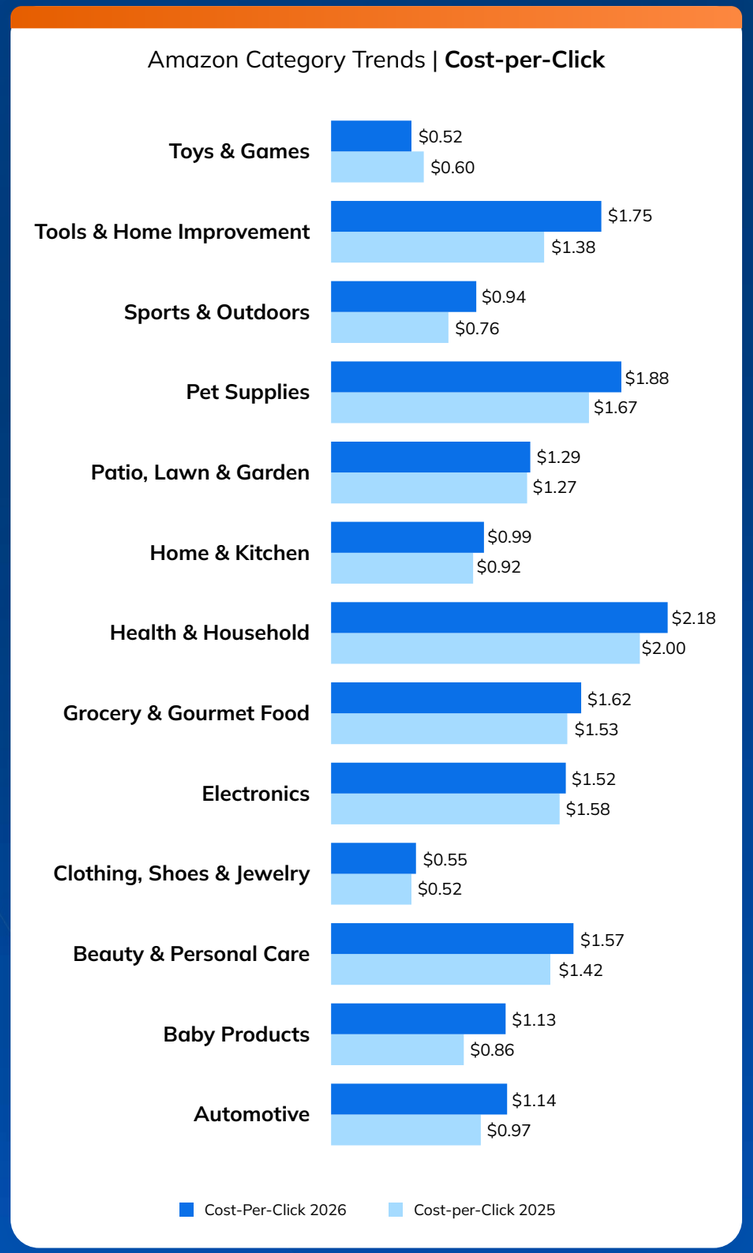
Q2 Amazon US Data

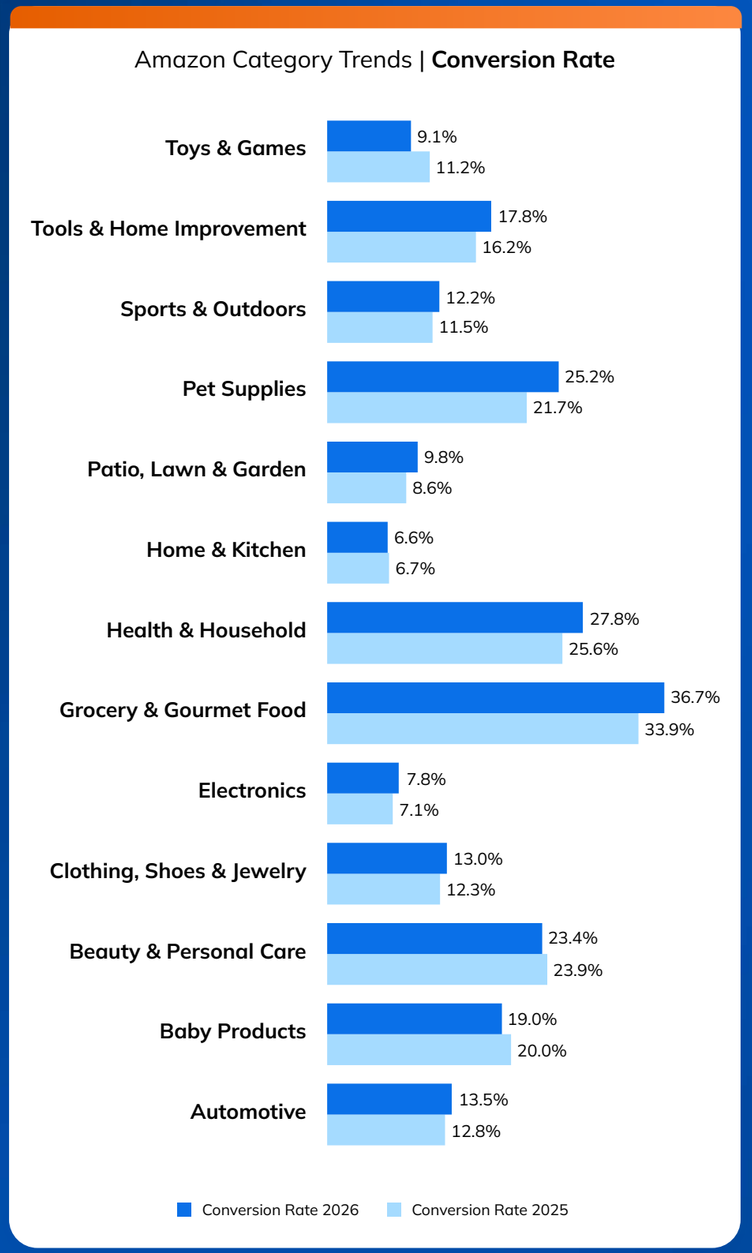
Spend

Amazon Category Trends

Baby Products had the highest brand average daily spend in Q2, followed closely by Health & Household.







CPC & CVR

Amazon Category Trends

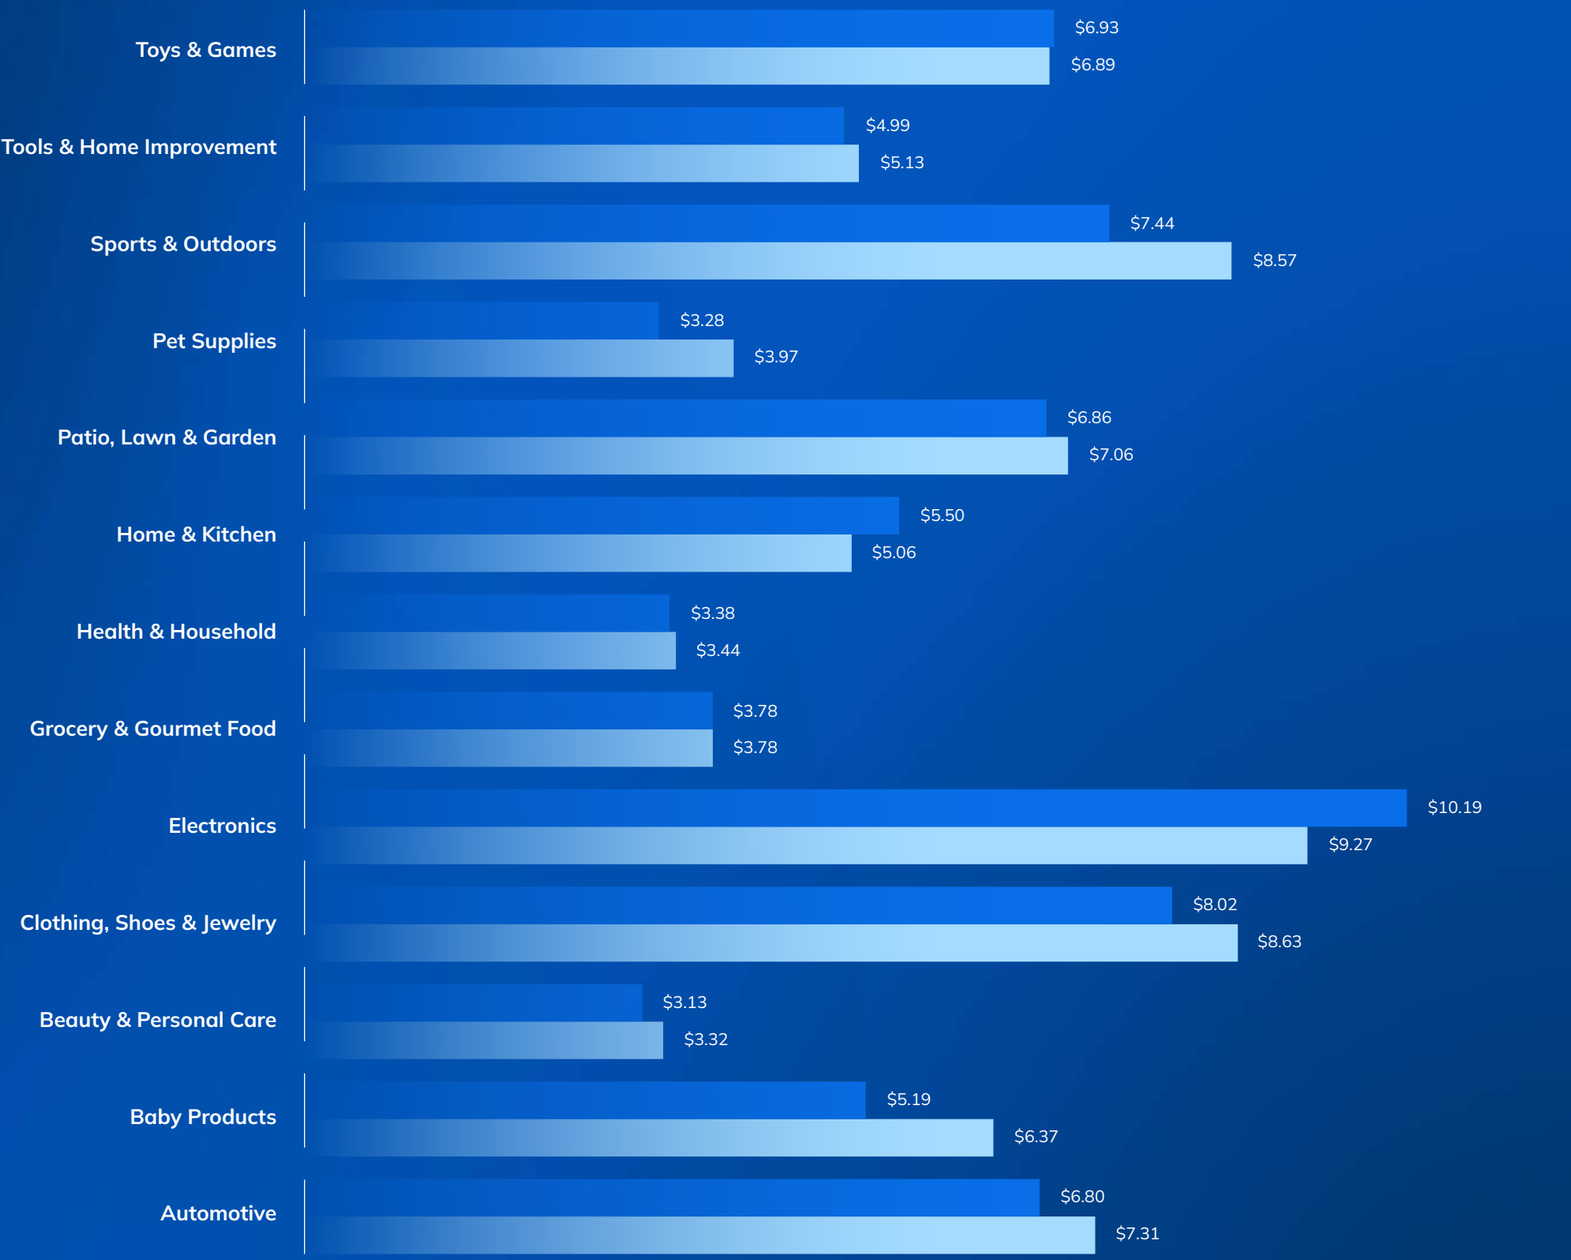
CPC rose year-over-year in 11 of 13 categories, confirming broad upward pressure on Sponsored Products traffic costs.

Grocery & Gourmet Food achieved the highest conversion rate at 36.7% (well above all other categories).

ROAS

Amazon Category Trends

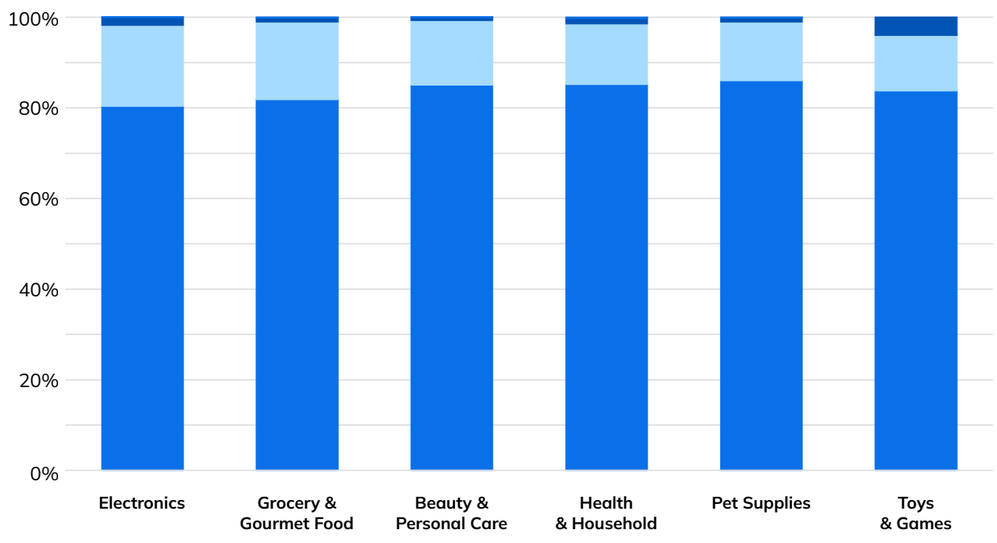
Clothing, Shoes & Jewelry had the most cost-efficient traffic in Q2, recording the lowest CPC ($0.55) alongside a strong ROAS ($8.02).



Spend Share by Ad Type

Amazon Category Trends

Amazon Category Trend | **Ad Format Spend Share by Category**



Amazon Category Trend | **Sponsored Brand Spend Share by Category**

	Electronics	Grocery & Gourmet Food	Beauty & Personal Care	Health & Household	Pet Supplies	Toys & Games
SP	80.44%	81.93%	85.13%	85.22%	86.08%	83.85%
SB	17.85%	17.05%	14.17%	13.42%	12.91%	12.30%
SD	1.70%	0.99%	0.69%	1.26%	0.95%	3.85%
STV	0.01%	0.03%	0.01%	0.10%	0.06%	0.00%

While Sponsored Products still accounts for the majority of ad spend, Sponsored Brands now make up a notable portion, nearing or exceeding 15% across key categories. Electronics had the highest share of Sponsored Brands spend in Q2 at 17.85%, followed by Grocery at 17.05% and Beauty & Personal Care at 14.17%. As Sponsored Brands reaches this scale, it is becoming a more deliberate part of category strategy rather than a secondary format.

Seasonal Storylines

Q2 Summer Sales

Summer Sales Overview

Seasonal Storylines

This year, Prime Day profitability was front-loaded: Amazon Sponsored Products ROAS peaked at $5.17 on Day 1 and fell to $4.07 by Day 4, with Sponsored Brand ROAS following a similar pattern, as surging CPC and stiffer competition steadily eroded returns.

Brands deprioritized Amazon Sponsored Display ads, cutting spend (-41.4% YoY)—which reduced sales in turn (-68.7% Day 1)—to reallocate budget to more conversion-focused formats like Sponsored Products and Sponsored Brand.

On Walmart, Sponsored Brand CTR surged (+67.03% YoY) even as CPC was relatively flat (+2.53% YoY), demonstrating that advertisers don't need to win bidding wars to drive superior click performance on the platform, which remains less saturated and more efficient than Amazon.

CVR declined (-19.1% YoY) during Target Circle Deal Days this year, suggesting that the extended 4-day promotional window may have affected shopping conversion patterns.

"The numbers from this Prime Day show a clear shift in how people are shopping. Slower growth points to the reality that economic pressure is squeezing both household budgets and brand margins. With less money going toward discretionary items, the fight for wallet share is tougher than it has been in a long time. You really have to give consumers a compelling reason to spend right now."

Eric Eisner
Senior Manager, Commerce Media, Tinuiti

About the Report

Explore Pacvue and Helium 10's Prime Day and Beyond: 2026 Mid-Year Commerce Media & Summer Sales Benchmark Report, containing quarterly and yearly advertising trends for Amazon, Walmart, Instacart, and Target. This report analyzes the current state of retail media across the United States, helping you to benchmark your own performance and understand key industry trends.

How We Measure

This report offers a comprehensive view of advertising data based on insights from thousands of advertisers utilizing Pacvue's platform across all product categories, making it one of the most comprehensive reports of its kind.

About Us

PACVUE

Pacvue is the leading Commerce Media OS, powering over $12B in advertising spend across 100+ global retail media networks including Amazon, Walmart, Target, Kroger, Instacart, Criteo, and CitrusAd. Powered by industry-leading AI and real-time data, Pacvue enables over 70,000 brands and agencies to maximize advertising performance, drive incrementality, and expand reach across the commerce universe from a single mission control. As of 2025, Pacvue powers 12% of total retail media ad spend worldwide excluding China. Combined with Helium 10's SMB solutions, Pacvue delivers the industry's most comprehensive platform for businesses of all sizes. Founded in 2018, Pacvue spans Seattle, Los Angeles, Chicago, New York, Washington D.C., London, Shanghai, and Tokyo. Discover more at pacvue.com.

Helium 10

Helium 10 is a commerce suite of tools for entrepreneurs and businesses to manage and sell products, find keywords, identify trends, optimize listings, and more on Amazon, TikTok, & Walmart Connect. Helium 10 champions entrepreneurship at all stages with the playbook to build, grow, and scale a meaningful and steadfast e-commerce business.
