

# No Need to Stick your Switch In the Closet

Not every business has the space—or the need—for a dedicated networking closet. Introducing the Cisco Catalyst 2960-L Series, the industry's first fanless, 24/48 port, 1 Gigabit Ethernet switches. Cost effective and full-featured, the Cisco Catalyst 2960-L switch lets you truly bring connectivity...out of the closet.

## When would a fanless switch come in handy?

### Retail

Great for mounting in confined spaces, the quiet Cisco Catalyst 2960-L Series has a port for everything in retail spaces.

-  Data connectivity for point-of-sale (POS) machines, phone, video display with network
-  Power over Ethernet (PoE) for all connected network devices

### Hospitality

The Cisco Catalyst 2960-L Series is great for providing secure connectivity to access points.

-  Connect up to 50 hotel rooms on one floor
-  Extend access from central distribution rooms
-  Provide 802.1X authentication to access points

### Office

No one in the office will be distracted by the unobtrusive Cisco Catalyst 2960-L Series.

-  Operates quietly
-  Provides network connectivity out of the wiring closet
-  Makes PoE available in open spaces
-  Simplifies management

## Why switch to the Cisco Catalyst 2960-L?

In addition to being the only fanless, 24/48-port, 1 Gigabit Ethernet switch on the market, the Cisco Catalyst 2960-L Series also offers these advantages over the competition:

Quiet and cool operation

Small form factor that is great for deployments with space constraints

Cost-effective connectivity

Bluetooth-based access

Automatic switch recovery

Perpetual PoE

Enhanced limited lifetime warranty (E-LLW) support

Simple day-0 provisioning

Performance at a glance through a dashboard

Easy-to-use diagnostics

## Cisco can bring your switching out of the closet.

Powering small networks with quietness and simplicity, Cisco Catalyst 2960-L Series Switches provide affordable, entry-level enterprise-class switching for branch offices, conventional workspaces, and outside-the-wiring-closet applications.

At Cisco, our people, products, and partners help you securely connect to and seize tomorrow's digital opportunities today.
