What's next?

All we need is a few details, and then a Vivint expert will reach out to you.

A Vivint professional will call you to answer any remaining questions and help customize a system for your unique needs and budget.

If purchasing a professionally installed Smart Home system, you can schedule your installation right away. On the day of the installation, a licensed technician will come to your home, set up your system, and show you how to use it.

If purchasing a DIY starter kit, you can expect your kit to be delivered in 7-14 days, including easy instructions for installation.
