QuickSeries Connect

Deliver the Information and Resources Your Guardians Need

For over 30 years, QuickSeries Publishing has delivered vital information to the people who need it, when they need it. We are content delivery experts.

A QuickSeries Connect app is a cost-effective solution designed to grow with you, coming equipped with 20+ modules. Our team can help you decide which modules best suit your needs and aid you in maximizing their potential.

Our app and Web-based administrative portal technology work together seamlessly, enabling smooth message delivery. With a series of taps, Guardians can access essential information, guidance, updates, and support without delay.

Informative and User-friendly

Augment your communication strategy by pairing compelling content with popular, practical app functions.

Modular Approach

Our turnkey, modular approach provides quick delivery and affordable pricing to help you achieve your ideal digital outreach solution.

Adaptable and Engaging

Reinforce a positive app experience with relevant content and specific QuickSeries eGuides.

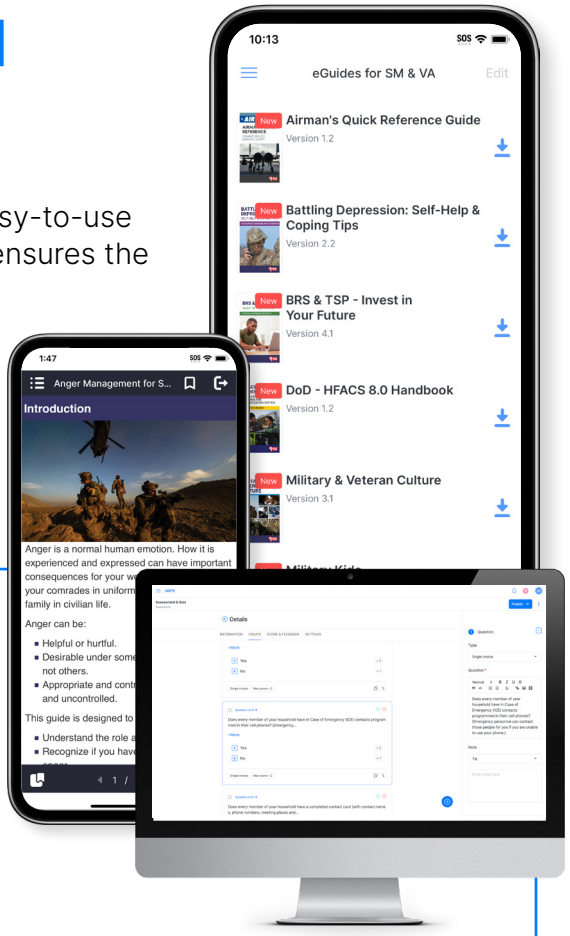

The appearance of U.S. Department of Defense (DoD) visual information does not imply or constitute DoD endorsement.

Your Ideal Communication and Outreach Tool

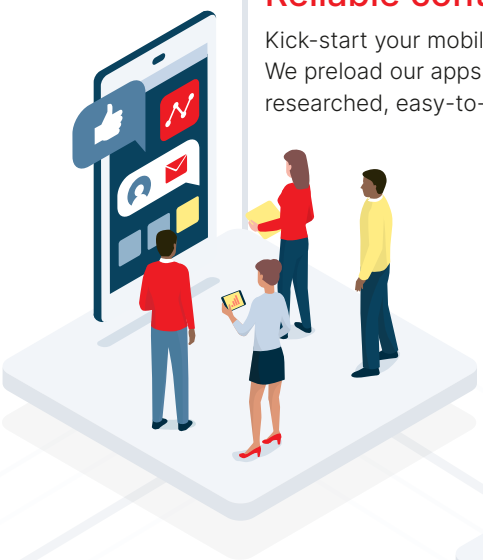

QuickSeries Connect apps bridge content and technology. The easy-to-use interface encourages smooth app adoption, and tailored content ensures the right information gets to the right people.

Build contact lists, resource networks, and training libraries, along with interactive forms, checklists, and assessments to stay in touch with your users. Achieve synergy between dependable delivery and impactful messaging that resonates with your military community.

- As an administrator, send news, alerts, and updates to users in real time. Use a reliable authoring tool to create personalized, dynamic content for your audience.
- Apply the Space Force's seal and colors to keep your mission top of mind.
- Benefit from technical support during the launch process and for the length of your contract, including onboarding assistance and regular product updates.

Uniting Content & Technology

Reliable content

Kick-start your mobile initiative. We preload our apps with well-researched, easy-to-read material.

Cost-effective solution

Save time and money. Our modular build delivers an affordable digital solution quickly and effortlessly.

Continuous engagement

Nurture user engagement with regular updates. Our experienced content team can provide authoritative, effective material as needed.

Includes a Growing Selection of Modules & Features

Mix and match to create your unique app system

Private User Registration

Enjoy a premium level of privacy with invitation-only functionality.

Authoring Tool CMS

Transform plain documents into visually appealing and engaging interactive eDocs.

Web-Based Administrative Portal

Quickly and conveniently manage and send updates to your app from anywhere.

Assessments

Provide specific tests, surveys, and assessments so users can evaluate their status, risk, and knowledge.

Forms & Reporting

Allow app users to send reports directly from their device to the Administrative Portal.

Resources

Deliver immediate in-app access to a variety of relevant resources and contacts.

News

Create informative news articles and notify all users at once with push notifications.

PDF & Video Library

Create your own personal library by uploading videos and PDFs with need-to-know info.

Grid Navigation

Add a sleek grid of icons to guide users to preferred sections.

Embedded Links

Organize your digital world by embedding crucial links – websites, contacts, social media, and eGuides – directly in the app's side menu.

Event Schedule

Inform app users about the who, what, where, and when of can't-miss events with this go-to calendar.

Maps

Guide residents to safety with evacuation routes, and provide information on shelters, hospitals, and police/fire stations.

Checklists

Create unique checklists for users to follow tasks, track progress, or list important items.

eGuide Library

Easily access and browse your personal library of interactive QuickSeries eGuides.

Alerts

Alert all app users to imminent/ongoing emergencies and update/end alerts as situations evolve. Prompt users to check in following an alert with a one-touch "I am safe" or "I need help" message.

Geo Push Notifications
Once users accept alert tracking and/or enter one or more zip codes, the administrator can send geo-targeted push notifications.

FEMA and NWS
Seamlessly integrate FEMA and NWS feeds into your Alerts module. Using filters and geolocation, customize which alerts are shown to users.

Integrating reliable content and software innovation

QuickSeries Connect apps deliver valuable information to enrich Guardians' lives and promote engagement. Reliable content is at the heart of these innovative content delivery tools.

- **Build a digital presence and transform how you connect with your community.**
