

your creativity is our compass

Before we get into details...

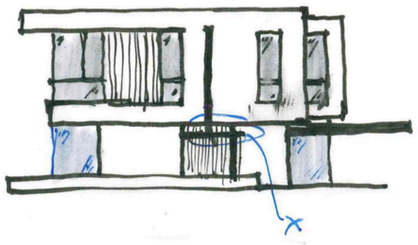

Use the following checklist to determine if our services will be helpful to your business goals and needs.

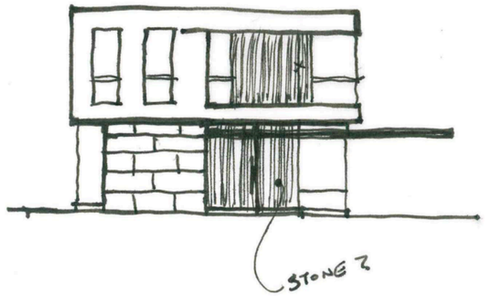

- **Do you work in architecture, interior design, construction or real estate?**
- **Are you in need of high quality 3D renderings, 3D models, animations, and/or 2D drawings?**
- **Do you prefer to have another business handle all your visualization projects?**
- **Do you need more than ten renderings per month?**
- **Are you trying to find a better way to showcase property spaces and design?**

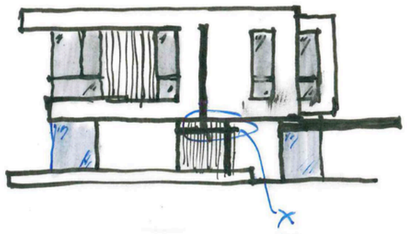

Your creativity is our compass.

At AP Visual Studios, we help architects, interior designers, and real estate developers maximize their creative freedom while maintaining financial costs and a smooth workflow. Through our expertise in architectural visualization and utilization of the latest 3D software programs, we'll craft your vision into a reality.

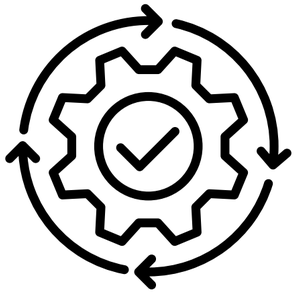

All you need to do? Share your ideas with us, and remember that your creativity hold no bounds.

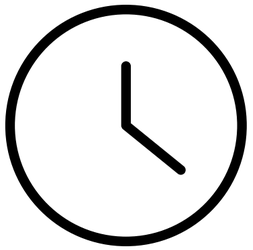

How We Can Help

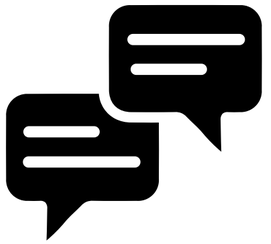

smooth workflow

Don’t want the extra work of doing your own 2D and 3D visuals? Leave that to us, and you’ll be saving time *and* maximizing your workflow efficiency.

quick & quality delivery

The doom from project deadlines is inevitable, which is why we work fast to get your projects delivered to you on time. Rest assured that quality isn’t compromised.

timely transparency

Expect back and forth communication regarding all project updates and revision needs. We’ll be transparent with you in every step of your project’s journey.

3D Modeling

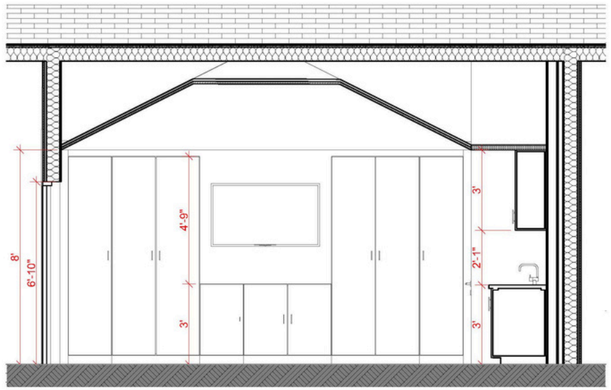

With 3D modeling, you'll have an accurate representation of the property's dimensions, giving you more clarity on what designs work best for the space.

3D Renderings

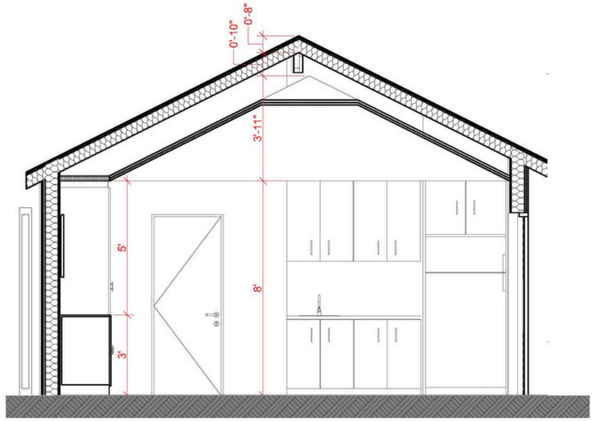

Elevate 3D models the next level by turning them into 3D renderings.

We’ll use details like textures, colors, nature, weather, and lighting to create a hyper-realistic image of the property.

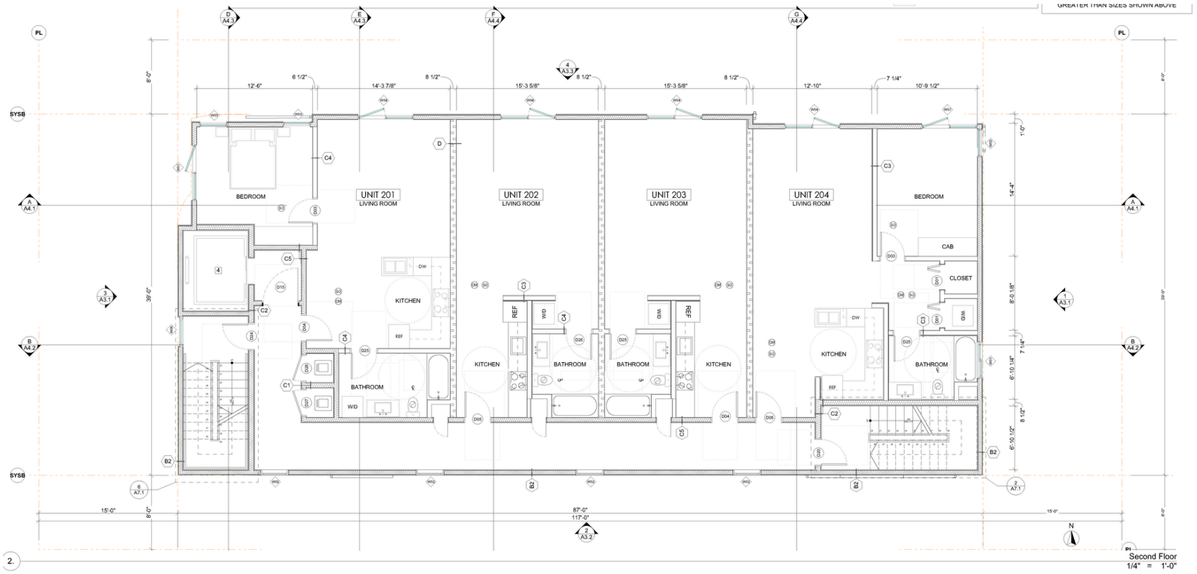

7 Wall Section

SCALE: 3/8" = 1'-0"

8 Wall Section

SCALE: 3/8" = 1'-0"

Second Floor

1/4" = 1'-0"

2D Drawings

While simple in comparison with their 3D counterparts, drawings are a vital part of the design process. Whether you need floor plans, elevations, or cabinet drawings—we're here to do the job.

Animations

Trees rustling in the wind. Water ripples through a pool. The softness of sunlight in a room.

It’s the tiny details and 360° movement of animations that give life to a 3D rendering.

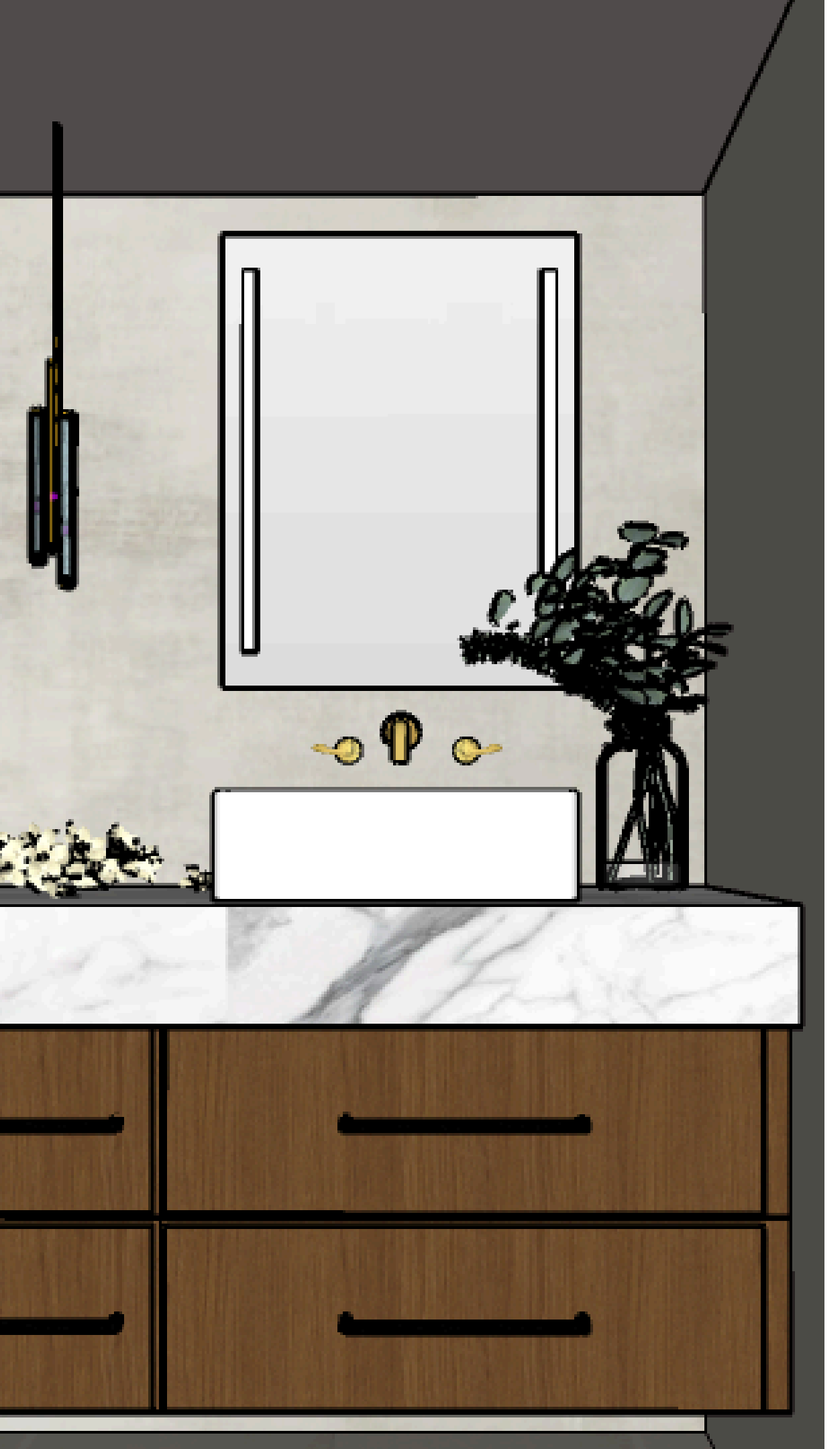

Multiple services for one monthly fee.

Now that you've seen what services we have to offer, you may be wondering the cost.

At AP Visual Studios, we wanted to create an innovative solution that tailors to our clients' project needs, budget costs, and workflow efficiency. That's how we came up with our partnership plan program, where clients can subscribe to multiple services for one flat rate per month. Continue reading to learn about the plans we offer.

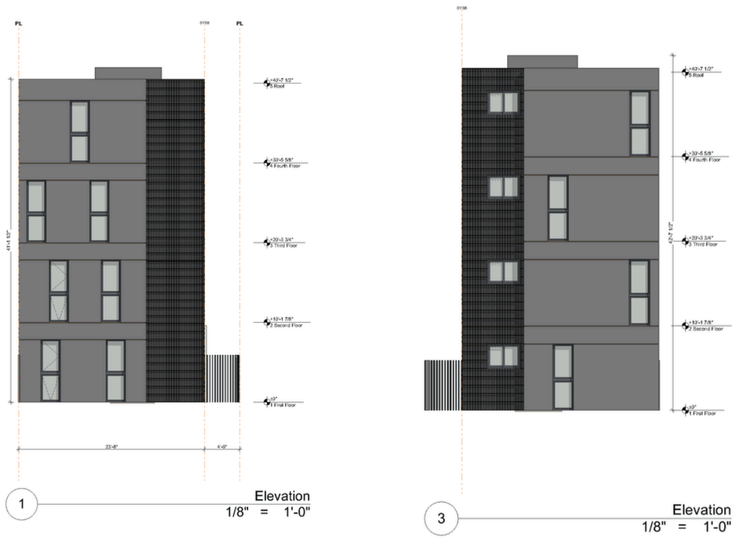

Basic

Unlimited requests
One request at a time
Rendering, texturing, materials creation
Photorealistic interior and exterior rendering
Turnaround time: 4-7 days

Pro

All features of the Basic Plan
plus architectural 3D modeling,
photorealistic 3D rendering
and 360° renderings.
Watercolor and sketching
services.
Turnaround time: 3-5 days

Elite

All features of the Basic and Pro Plan **plus** floor plans, walkthroughs, sections, elevations, and architectural concept services **and** social media management services
Turnaround time: 2-4 days

Frequently Asked Questions

What kind of clients does AP Visual Studios work with?

Most of the people we work with are architects, interior designers, and real estate developers. However, we are here to help anyone in need of architectural visualization services!

How does a partnership plan work?

A partnership plan is where you pay one monthly fee for a range of architectural services. Once you sign up, we'll send you a personalized Notion page that will be your main point of making service requests, uploading project files, and communicating with our team.

Do you offer a-la-carte projects for clients who are not on a plan?

Yes! Just email us your project scope to hello@apvisualstudios.com and we'll send you a customized quote.

What if I need a project expedited but don't have the Pro or Elite Plan?

Depending on the project scope and deadline, we may be able to make exceptions or offer an expedited option for a small additional fee.

Do you offer custom plans?

Yes. If none of our plans work for you, email us your specific needs at hello@apvisualstudios.com and we will happily create a customized plan for you.

So what next?

Now that we've told you what AP Visual Studios is all about, it's time it to take action.

If you want to lessen your load of work, and get a high amount of amazing visualizations for a low cost, **double-click** the link on the right to schedule a consultation with us! (Or simply email us your project scope and details to **hello@apvisualstudios.com**)
