More heat than a SWAT team.
Green enough for the tree huggers.
Who says you can't please everyone?

PRESTIGE

All the warmth. None of the guilt. Featuring a stainless steel condensing gas boiler whose power is matched only by its 95% efficiency, the wall mountable Prestige Series is sure to provide your residential customers with consistent heat and savings all year long. Available in 5 models with capacities of 60,000 to 399,000 Btu/hr. Kumbaya anyone?

PRESTIGE CASCADE

If the goal is cool savings and consistent warmth, Prestige wall mountable gas boilers are the solution. Team up with the Prestige residential series, available in five stainless steel models with capacities from 60,000 to 399,000 Btu/hr, and experience inexpensive year-round radiant heat. Or, choose the Prestige Excellence series, which beyond warming your home also provides 180 gph of domestic hot water. For commercial uses, nothing beats the powerful flexibility of the Prestige Cascade series and its impressive ability to provide up to 800,000 Btu/hr. Of course, no matter which Prestige system you prefer, one thing's for sure: you'll enjoy the same quiet and 95% energy efficient performance with all three.

With the money you save, you could take a trip to see your in-laws. Or not.

The chill in the air that accompanied your in-laws last visit wasn't what you think. It was your house's lack of consistent heat and hot water. Bring back the warmth with the Prestige Excellence. Combining the 95% efficiency of Prestige stainless steel condensing gas boilers with a built-in Indirect Fired Water Heater capable of producing 180 gph of domestic hot water, Excellence is as powerful as it is cost-effective. Of course, whether you use the energy savings to visit good old Mom and Dad this year is entirely up to you.
