## STYLES YOU'VE LOVED SINCE CHILDHOOD—ALL GROWN UP

Can something old be made new again? If these spring must-haves are any indication, the answer is a resounding yes. Though you've had stripes, floral dresses, and denim jackets in your closet since childhood, you've never seen them like this. Playing with scale, our favorite **FLORAL DRESSES** feature micro blooms and oversize bouquets that are anything but garden variety. In contrast to feminine florals, graphic **STRIPES** look right regardless of size, shade, or design. And as for the denim jacket, everyone's favorite coming-of-age essential? We've dubbed it the season of the **DENIM JACKET REDUX**. Look for generous proportions, washes that span the spectrum, and decidedly sophisticated takes on denim-on-denim, colloquially known as the "Canadian tuxedo." —Nicole Jordan
