

SURIAGROUP

REPOSITIONING FOR SUSTAINABLE GROWTH

ANNUAL REPORT **2022**

REPOSITIONING FOR SUSTAINABLE GROWTH

Leveraging on four decades of market presence, Suria stands resilient in the face of unparalleled global economic turbulence. Our unwavering commitment to strategic evolution across our business segments empowers us to adapt to ever-shifting market demands and fulfil the community's future requirements.

We have received approval for the extended concession of Sabah Ports for another 30 years, enabling us to better strategise for the future. Furthermore, our proposed collaboration with a renowned international port and trade enabler will propel Sabah Ports to expand beyond Sabah and establish a formidable regional presence.

Embracing our dynamic repositioning, we persistently strive to expand our portfolio, enhance our operational expertise, and capitalise on these new opportunities, propelling us towards long-term, sustainable growth.
