What an absolute pleasure it has been working with William. He's clear and concise on what needs to get done in a graceful manner. He made sure to get to know my business before he put his influence into it and that was a great touch.

He also made sure things got done in a timely manner on my end by checking and seeing how things were coming along, which was hugely beneficial with how fast time has flown by through this whole pandemic. Once again it was a pleasure working with him. I highly recommend his services.

I very much enjoyed working with William. He was very easy to work with and was professional. He was able to guide me through the process of building my site with the template that was set up and offered great feedback on areas that I could improve. He was always offering to touch base and check in and I appreciated his perseverance.

William was also very knowledgeable about the site and settings. He was able to guide me around the editor/settings over Zoom. He was very detail oriented and was always checking my page for inaccuracies.

He was always able and willing to answer any questions I had. If he didn't have the answer right away he was always willing to check and get back to me. In this manner, he was always consistent and made me feel that my site was a priority for him, which I appreciated.
