Overview

The explosive growth in digital ventures across India and the world in the last decade has led to an ever-growing demand for Product Managers. Product Managers are at the intersection of business, technology and customer experience. They are 'CEOs of their product', responsible for every facet from development and launch to marketing and analytics.

“

The 2020 Product Strategy Trends & Benchmark Report found that 43% of organisations say that product managers are the key differentiators in their businesses.

”

Begin your journey towards a career in Product Management by enrolling for **XLRI VIL's Advanced Product Management**, in collaboration with Eruditus Executive Education.

Through this programme you will gain an understanding of product strategy, ideation, creation, management and growth across life cycles as well as marketing, branding and sales from a product perspective. It will enhance your creative problem-solving skills, and equip you with immense strategic and tactical knowledge allowing you to play a key role in creating disruptive business models.

Who is this Programme for?

The Advanced Management Programme is most beneficial for:

- Marketing & Sales Managers looking to understand products and lifecycles in order to better market, promote and brand them, as well as professionals interested in moving into product-centric roles.
- Product, Category & Programme Managers interested in furthering their knowledge in product strategies, disruption and innovative techniques.
- Business Heads & Entrepreneurs keen to understand market opportunities, conceptualise disruptive business models, nurture products, and network with industry thought-leaders.
- Consultants looking to develop a strategic and customer-centric mindset, adapt new technologies, business models, and product strategies.

XLRI VIL's 10 month Advanced Product Management programme will be a great learning experience for professionals across a wide variety of industries, especially those who work in ecommerce, media, retail, healthcare, education and the IT industry.
