

About Liquidity Services

Liquidity Services is the leader in managing surplus assets across the globe to maximize return, more efficiently and more strategically. With Liquidity Services, you have a partner who maximizes the total value you can expect for your surplus – higher recovery, more efficient processes, simplified and consistent operations, global coverage, lower risks, sustainable solutions, and service from people you can trust to deliver results.

Why Liquidity Services

We maximize total supply chain value by providing better service, scale, and results.

Better SERVICE

Partner with Liquidity Services to experience superior levels of industry and asset expertise, responsiveness, intelligence, and analytics that achieve high-performance results aligned to your strategic goals.

Better SCALE

Simplify your operations with complete solutions tailored to your industry's specific requirements. Our services are comprehensive, modular, and scalable, spanning all volumes, asset categories, conditions, sales channels, and locations worldwide.

Better RESULTS

Let us orchestrate the right combination of great people, best-in-class processes, and cutting-edge systems to deliver maximum return and long-term value.

Our Purpose

We exist to intelligently capture the enduring value of surplus assets, benefiting our clients, our buyers, and our planet.

History

Liquidity Services was founded on the belief that there is a better way forward in the \$150 billion reverse supply chain industry – a way to transform surplus from a burden into a value-added opportunity. Our innovative solutions to intelligently manage, value, and sell surplus assets laid the groundwork for our success. But our commitment to sustaining our clients’ trust and exceeding their expectations propels us ahead as the industry leader.

Founded: 1999 IPO: 2006

Core Values

- Integrity
- Customer Focus
- Relentless Improvement
- Innovation to Support Leadership
- Mutual Trust and Accountability
- Shared Success
- Doing Well and Doing Good
