## **THE PIECE REVOLUTION**

*By The Piece Pizzeria* has kick-started a pizza revolution.

This revolution fights for local farmers and their fresh, organic ingredients. It stays true to age-old Italian stone-baking techniques, ensuring an evenly-cooked, crispy crust. This revolution puts a premium on your palette, exposing it to rich cheeses, melt-in-your-mouth meats, vitamin-rich vegetables, heavenly herbs and satanic spices.

Ours is also a revolution which embraces modernity. Our radical app allows you to have gourmet pizza delivered anytime, anywhere, in Metro Toronto. With just one click on your smart device, you can have mouth-watering, piping hot-pizza at your doorstep in 30 minutes or less.

Should you be in the mood to dine among fellow revolutionaries, come revel at one of our rebellious pizzerias throughout Toronto. Converse with your comrades over a pizza, a platter or a slice, and make your conversation even more unruly with a glass of one of our crisp, hand-picked Italian wines.
