

Ready to drive revenue across your portfolio? Our digital evolution is in full swing, designed and delivered to make your job easier. At Brook, we've invested in transformational technology to streamline our delivery operations and enhance the customer experience, with automated route planning and real-time insights. Game on!

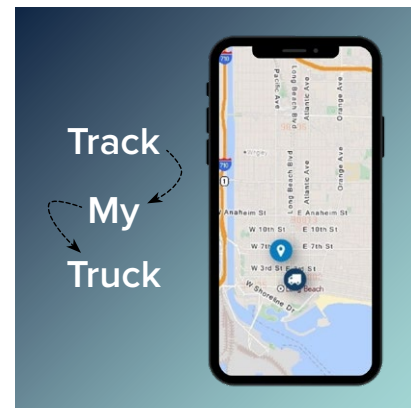

**New & Improved Online Portal:** An all-in-one furniture rental solution, with 24/7 self-service, customizable furniture packages, and real-time inventory availability.

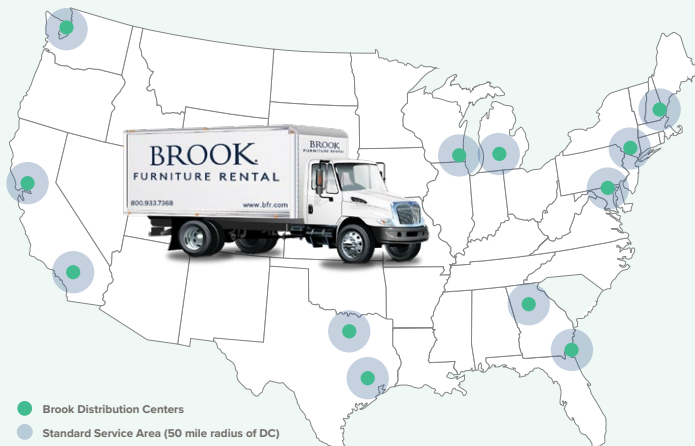

**Track My Truck:** Up-to-the-minute ETAs at your fingertips, and the freedom to plan accordingly.

**Full API Integration with *BrookConnect*™:** We'll merge seamlessly with your internal systems so that you can create and manage leases without having to leave your own environment.

## Major metro markets served

Brook's technology-driven rental model prioritizes reliability, responsiveness, and satisfaction. Stress-free, every step of the way.
