Apartments.com drives 30% of property website visitors.

Maximize Your Community Website Traffic

Understanding how renters search for an apartment can be a challenge. We analyzed 120,000 online renters across 403 websites to determine the impact that apartment listing sites have on community website traffic, and provide you with tools to help increase performance of your digital marketing strategy.

In our newest paper, "**The Key to Reaching Renters: Knowing How They Search**," you will learn how apartment communities:

- Increase community website traffic by 30% or more
- Improve conversion of inbound leads by 4X
- Improve the effectiveness of paid search marketing efforts

More traffic means more True Leads™
