

Here's what made noise on Sonos in 2018

This year, the Sonos experience expanded to include Amp, Apple AirPlay 2, Audible, Beam, and the HAY Limited Edition Collection. But as 2018 draws to a close, we wanted to know—what was your sound experience highlight of the year?

“ My second-grade daughter came home from school and told me she learned about jazz and "a guy with big cheeks who played the trumpet." Ten seconds later my daughter and I are dancing in the kitchen, listening to "Cheek to Cheek" by Ella Fitzgerald and Louis Armstrong. ”

“ Since moving into a new home with a media room I'm finally able to really crank my stereo-paired Play:5s with Sub. ”

“ We have listened to Sandra Boynton's *Philadelphia Chickens* approximately 8,000 times this year...the kiddo's eyes light up every time. ”

“ Pink Floyd's *Wish You Were Here* is still my go-to album. I can remember my dad buying it for me, wrapped in its plastic cover. Listening to it now on Beam with surrounds is incredible...and made it that little bit more extra special and personal. ”

“ As a sports fan, I love listening to game audio throughout the house. But instead of listening to the broadcast announcers, I use TuneIn to listen to my hometown's local radio broadcast. Feels like home! ”

“ I added a pair of Sonos Ones to each of my two kids' rooms. As a parent, I love hearing what music they're into. My son is currently listening to George Strait, while my daughter will often ask Alexa for Prince or Michael Jackson. It's even better when they start singing along. ”

“ Our five-year-old figuring out how to put "We Will Rock You" on repeat. ”
