

European Blockchain HUB

About Us

European Blockchain Hub is an independent and nonprofit organization supported by European Commission. We under advocacy groups and partner with United Nations Development Programme (UNDP) by building a better future on achieving the Sustainable Development Goals (SDGs) in the blockchain industry.

2018

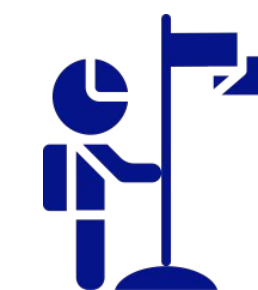

VISION

To become the **leading global multi-stakeholder's platform** that supports successful development of Blockchain technologies.

MISSION

We **Advocate** Blockchain development, **Enforce** capacity building and **Design** projects of common interest based on principles of good governance.

Objectives of European Blockchain Hub :

01 #One

Develop an international standard for Blockchain to be adopted by every country.

02 #Two

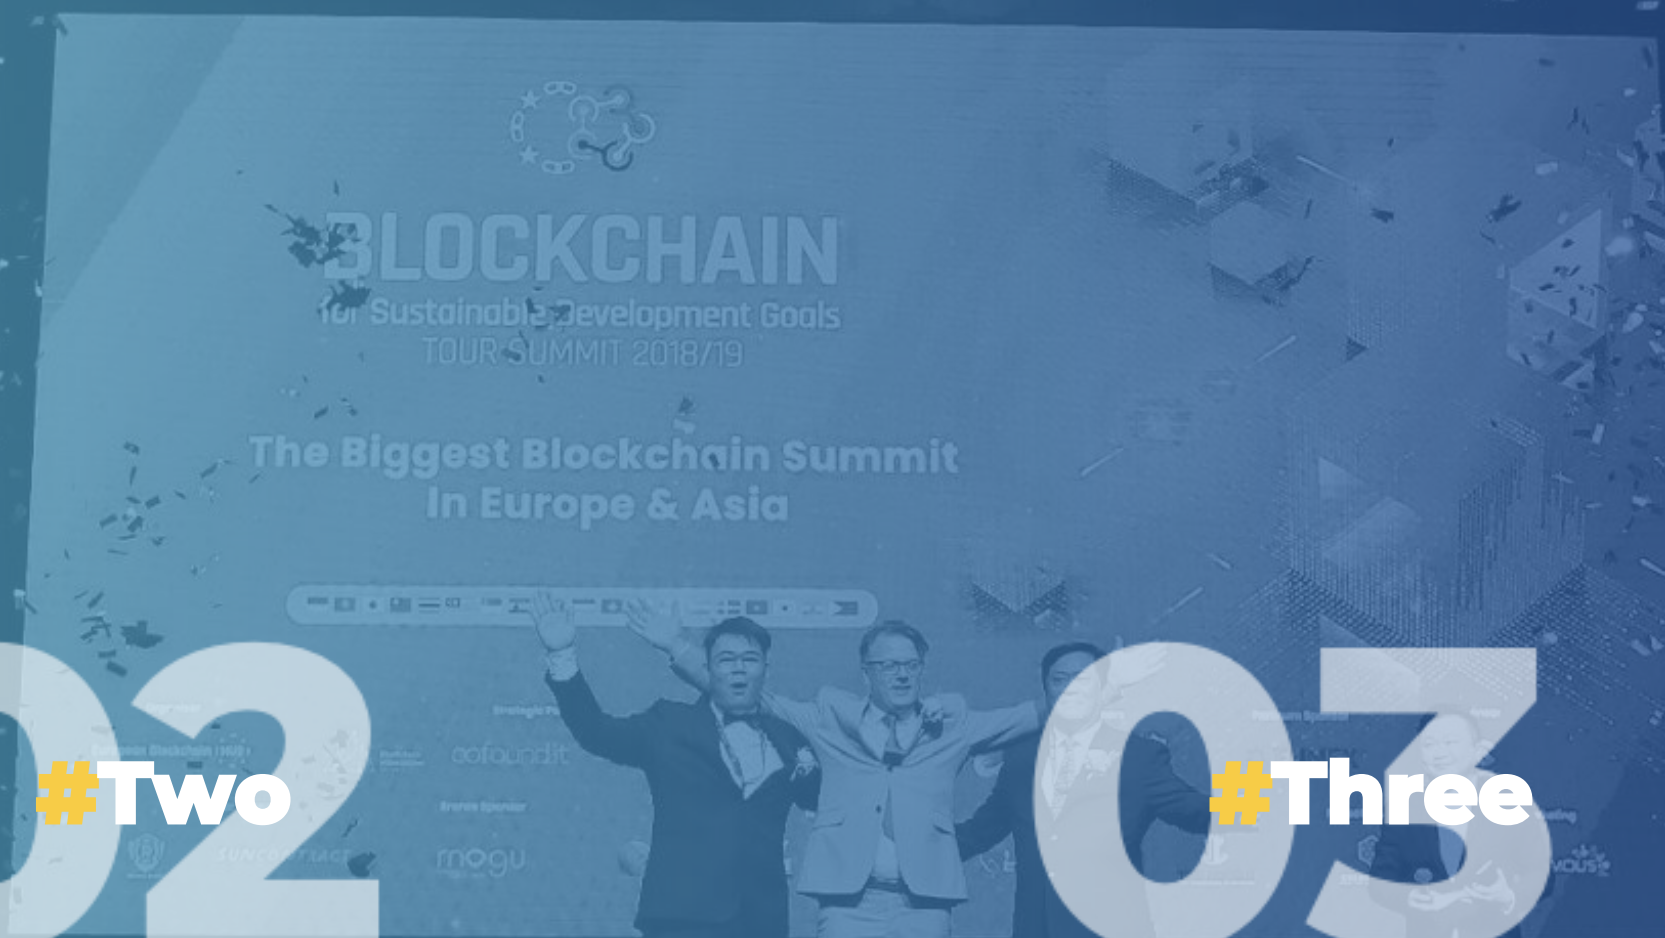

Advocate the development of smart regulation for Blockchain and digital entrepreneurship ecosystems.

03 #Three

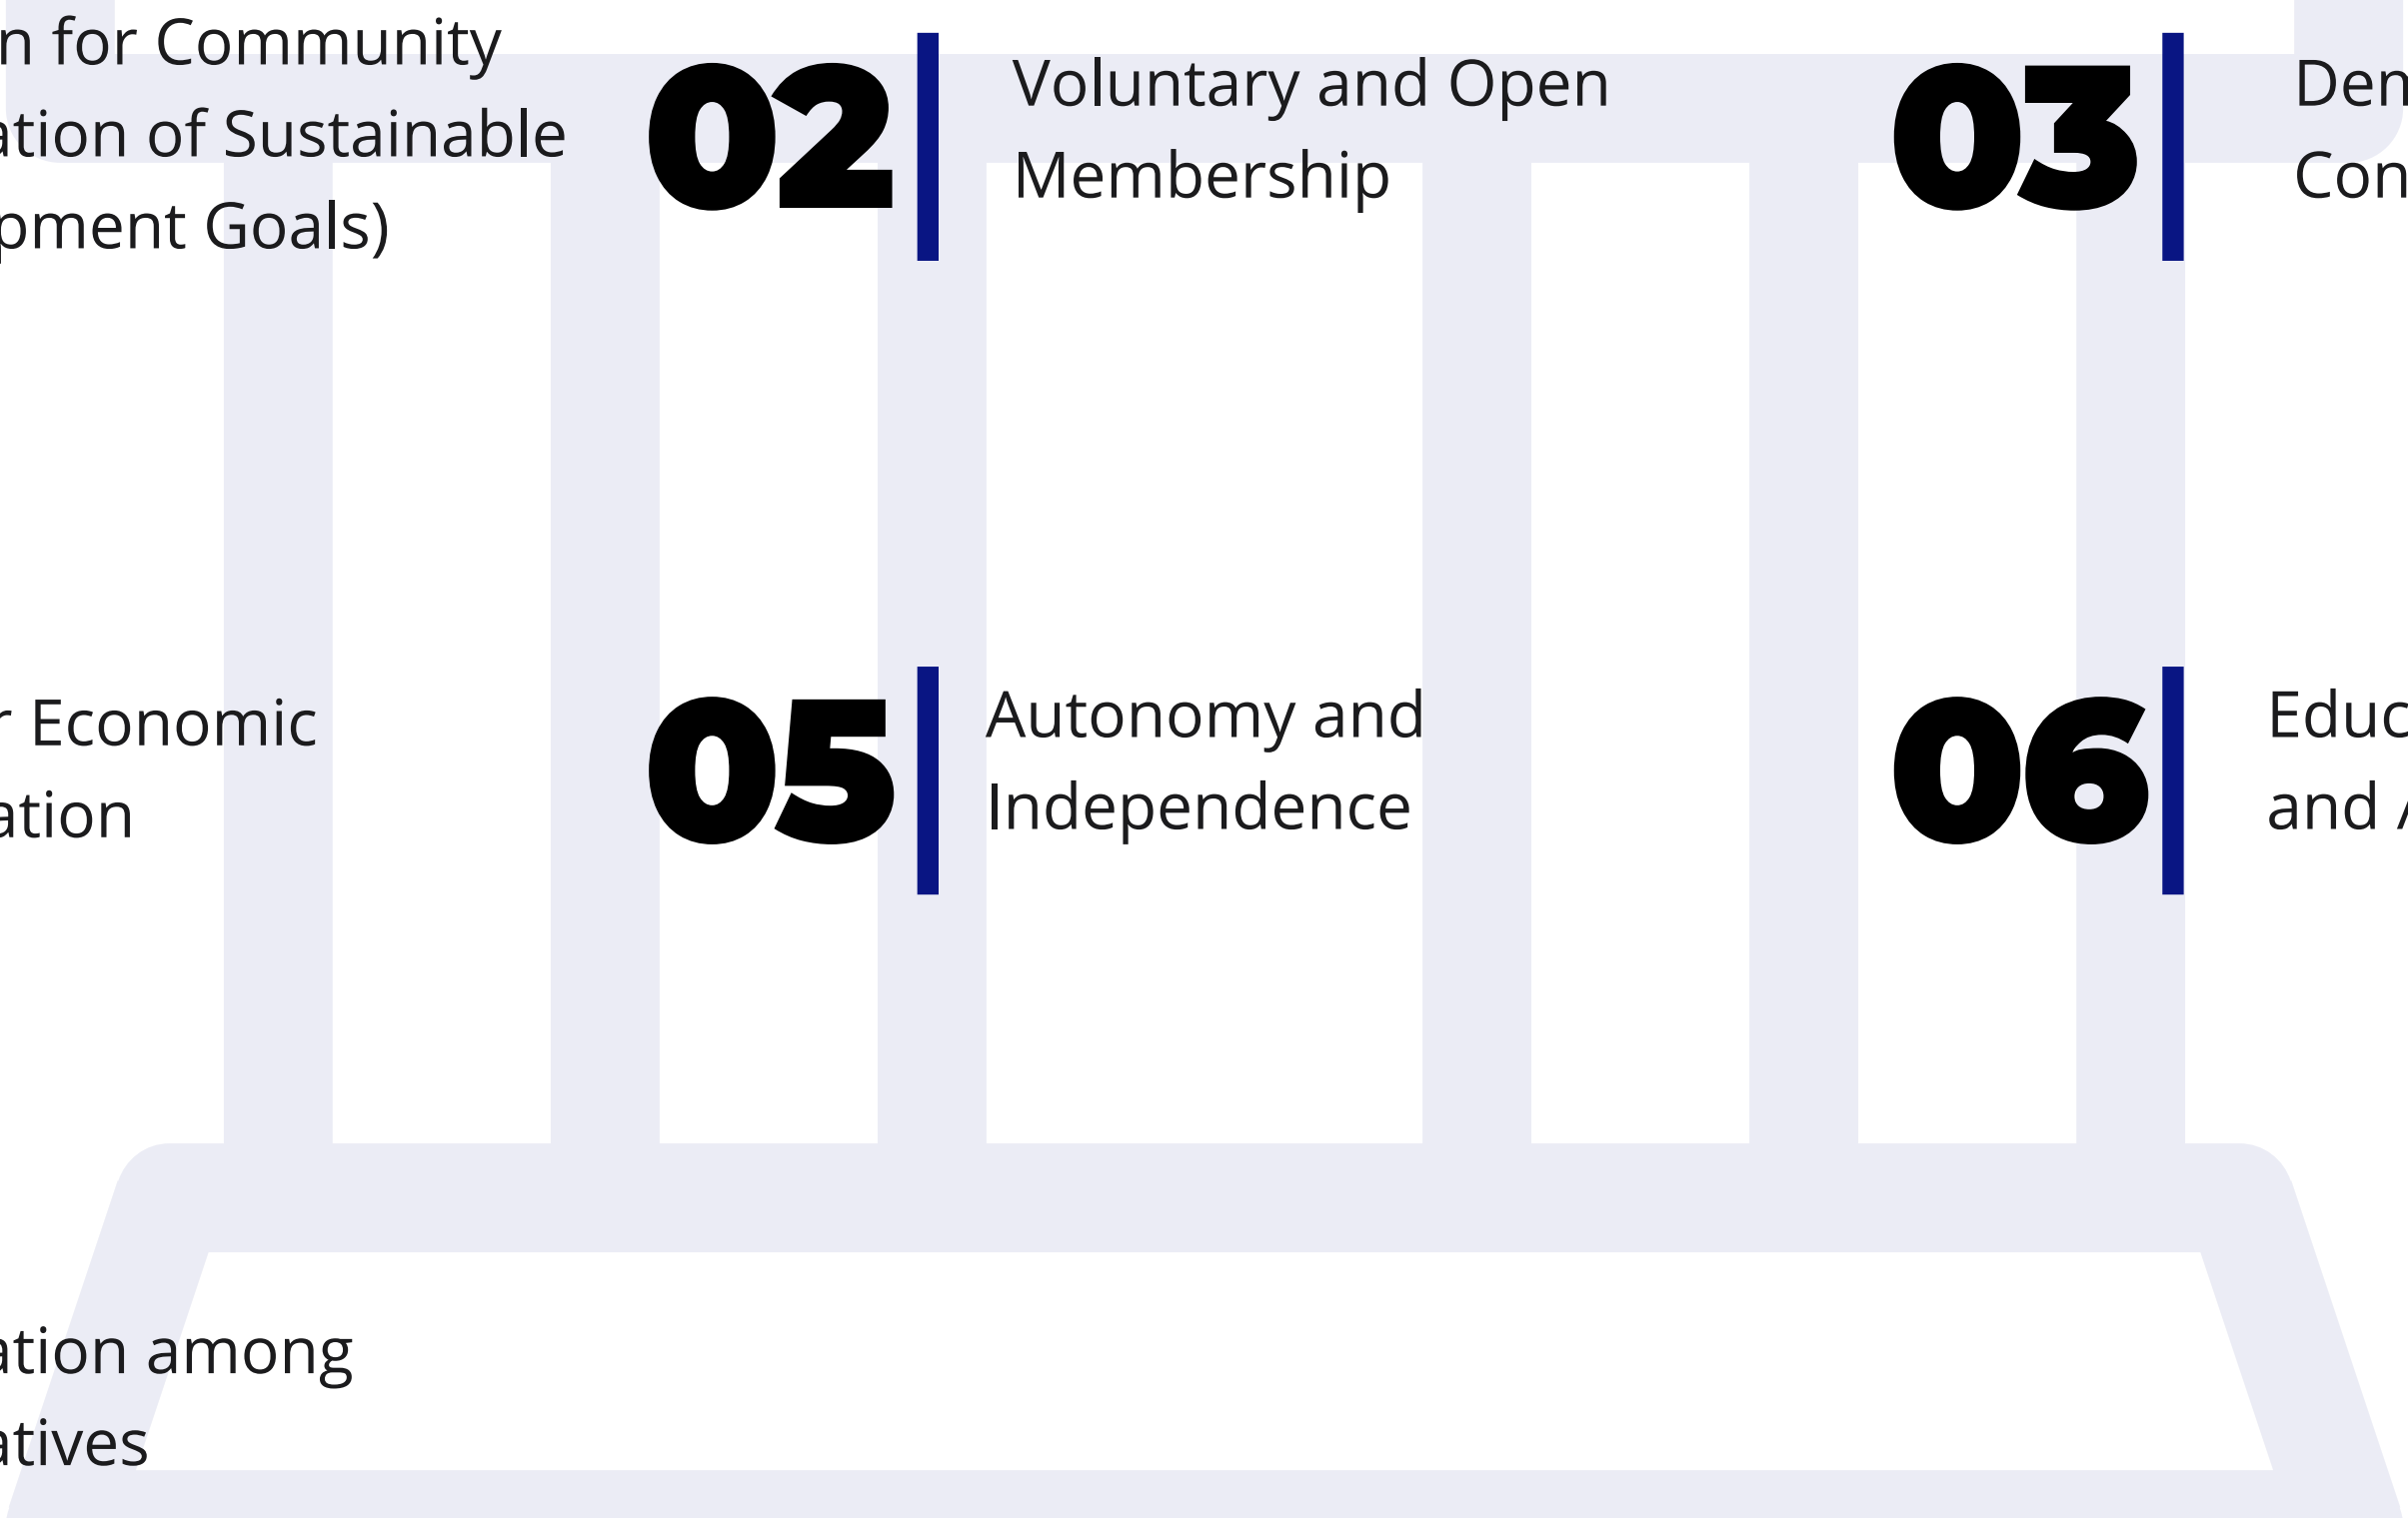

Provide capacity building for Blockchain through training and education, as well as research and innovation.

04 #Four

Initiate Blockchain projects towards Sustainable Development Goals.

Our 7 Governance Principles

- 
- 01** | Concern for Community
(Realization of Sustainable
Development Goals)
 - 02** | Voluntary and Open
Membership
 - 03** | Democratic Member
Control
 - 04** | Member Economic
Participation
 - 05** | Autonomy and
Independence
 - 06** | Education, Skill Acquisition
and Access to Information
 - 07** | Cooperation among
Cooperatives

Highlights & Activities

European Blockchain Hub facilitates high-level advocacy for creation and development of Blockchain and emerging technologies. We aim to support the Sustainable Development Goals across multiple sectors worldwide – **Blockchain for Sustainable Development Goals Tour 2018/19**

European Blockchain Hub generates and distributes knowledge about Blockchain and emerging technologies. We create new concepts throughout open research & innovation. We design curriculums and organize events with the aim to generate & share knowledge.

European Blockchain Hub initiates, co-ordinates and runs Blockchain and emerging technologies projects of common interest of the co-operative stakeholders, members and partners.
