## Why Buy Zombi at CBD.co?

Diving into the world of [THC products](#) can seem like a daunting task, especially when there are so many brands out there. But the search doesn't have to be hard when you shop at CBD.co!

At CBD.co, we offer a streamlined process that allows you to compare various products from leading brands, in real time, making for simplified shopping for the best hemp- and mushroom-based products on the market. Enjoy the convenience of exploring and ordering various items from different brands all in one place. Bid farewell to the challenging search for the perfect THC products—CBD.co stands as your trustworthy companion on your journey.

## Exclusive Discounts

Enjoy discounts, exclusive sales, promotions, and earn [Rewards Points](#) with each purchase when you shop your favorite brands on CBD.co!

## All-in-One CBD & THC Retailer

Here, you'll find an extensive range of premium hemp-based products for wellness, including [CBD edibles](#), [tinctures](#), [vape pens](#), [capsules](#), and more! Also, if you'd like to enjoy hemp's euphoric effects, we carry a long list of high-quality [THC products](#), including [THC gummies](#), [THC syrups](#), [THC tinctures](#), [HHC vapes](#), and much, *much* more.

## About Zombi

Zombi is dedicated to curating the finest hemp-derived cannabinoids, terpenes, and flavors to bring you a premium, high-quality selection of THC-infused gummies and disposable vapes. Understanding the importance of a peaceful and worry-free experience, Zombi is committed to delivering products that elevate your relaxation journey. Embark on the Zombi experience and discover a new level of quality and enjoyment!

## THC Gummies

[THC gummies](#) are edible products infused with tetrahydrocannabinol (THC), a compound derived from hemp plants. [THC edibles](#) are designed to provide users with a discreet and convenient way to consume THC cannabinoids, like [delta 8](#), [delta 9](#), [delta 10](#), and many more. These hemp-derived compounds offer a psychoactive experience, and, when formulated into a tasty gummy, come in various flavors and dosages, making them a popular choice for individuals seeking an alternative to traditional THC products.

## Disposable THC Vapes

[Disposable THC vapes](#), also known as disposable vape pens, are pre-filled devices containing vape juice infused with THC, the psychoactive compound found in cannabis. These devices are designed for single or limited use and are convenient for on-the-go consumption.

Disposables consist of a battery, an atomizer, and a cartridge containing the THC-infused liquid. Users do not need to worry about charging or refilling the device. Instead, they can use the pen until the liquid is depleted or the battery runs out, after which they can dispose of the entire unit.

## What Is THC?

THC is one of the most abundant cannabinoids found in all cannabis plants, including hemp and marijuana. While [delta 9 THC](#) is the most common form of THC, there are many other THC compounds native to cannabis plants. For instance, [D8 THC](#) is another THC cannabinoid found in the cannabis plant. It is a close relative to the more well-known delta 9 THC, which is the primary psychoactive compound in cannabis responsible for the plant's notorious "high" sensation. Delta 8 THC shares a similar molecular structure but has a few key differences that result in its distinct effects.

Minor cannabinoids like D8 THC compound are psychoactive, but their effects are generally described as milder and more subtle. Users often report a grounded (yet still elevated) experience, making them appealing to some individuals seeking a more controlled and functional experience.

## About Their Ingredients

Zombi offers a diverse range of products infused with psychoactive hemp-derived cannabinoids. Understanding the distinctions and their individual effects is crucial in guiding you toward the perfect choice for your preferences and needs!

## Delta 6

[Delta 6 THC](#) shares the same molecular formula as delta 9 THC but features a unique arrangement. This leads to a specific type of effect—one that may be more suitable for individuals with lower tolerance levels. While it induces psychoactive effects, delta 6 often creates a "buzz" rather than an intensely euphoric experience, resulting in more mild, sensitive changes. Users report uplifting and energizing sensations, accompanied sometimes by an increased sense of

THC-P, also known as tetrahydrocannabinol, is a lesser-known cannabinoid found in cannabis. [THC-P](#) is structurally similar to the more well-known psychoactive compound in cannabis, but it is said to be more potent with a more intense psychoactive effect than traditional delta 9 THC.

Here's a breakdown of Zombi's bestsellers!

Type of Product	Active Cannabinoids	Price
<a href="#">Live Resin Death Drop THC Gummies</a>	Delta 6 & THC-P	\$14.99
<a href="#">Live Resin THC Vape Pens</a>	Delta 6 & THC-P	\$49.99

It really is that easy!

## Frequently Asked Questions

Does live resin vape oil taste good?	—
Live resin vape oil is frequently regarded as more flavorful and potent than other varieties of hemp-derived oils because it retains the complete terpene profile of hemp. So find a flavor you're interested in and take a puff!	
How do I find my gummy dosage?	—
The effects of Zombi edibles depend on your personal THC tolerance. For beginners (or those with a lower tolerance,) we suggest around 25mg. Since D8 and D6 are weaker than D9, it'll take more gummy pieces or a higher dosage to achieve similar results. Dosage is found on the packaging, and it's important to remember that you can always take more, but you can't undo the pieces you've had, so start off at a lower dosage and work your way up from there.	
What are the flavors of Zombi vape pens?	—
In their line of disposable THC vapes, Zombi uses a number of iconic strains and flavors to give customers a unique THC-infused experience! These flavors include Murder Melon, Lucid Lemon, Cereal Milk, Radioactive Raspberry, and Jungle Juice!	
What is the difference between delta 6 and delta 8?	—
Delta 8 and delta 6 are both minor cannabinoids that create similar, though slightly different, effects to delta 9 THC. Both of these minor cannabinoids are popular for their euphoric effects that leave users mildly elevated and in a unique state of bliss.
