### Why Buy Erth Wellness at CBD.co?

Dive into CBD.co's vast library of [CBD products!](#) With a streamlined process for comparing products from the leading brands in the industry, CBD.co is here to be your one-stop shop for all your hemp- and mushroom-based go-to products. Enjoy the convenience of exploring and ordering a variety of items from different brands, all in one place.

### Exclusive Discounts

Enjoy discounts, exclusive sales, and promotions, and earn [Rewards Points](#) with each purchase when you shop your favorite brands on CBD.co!

### All-in-One CBD & THC Retailer

Here, you'll find an extensive range of premium CBD products, including [CBD edibles](#), [tinctures](#), [vape pens](#), [capsules](#), and more! Also, if you'd like to enjoy cannabis's euphoric effects, we carry a long list of high-quality [THC products](#), including [THC gummies](#), [THC tinctures](#), [THC tinctures](#), [HHC vapes](#), and much, much more.

### About Erth Wellness

Erth Wellness' brand presence embodies the rustic essence of a craft fair, coupled with a touch of expertise to bring CBD products to life in your routine. Erth Wellness oversees the entire process from seed to sale. Their diverse product line includes topicals, tinctures, and more! Meticulously selected and dried by their skilled team, Erth Wellness' premium CBD ensures quality. Each product features a distinctive QR Code, providing access to the active cannabinoid profile for transparency and assurance.

### CBD Vape Cartridges

A rechargeable vape pen, or [vape pen battery](#), is a portable device used to power and activate [CBD vape cartridges](#) or atomizers. Unlike [disposable vape pens](#), which are discarded after use, rechargeable vape pens can be reused by replacing the cart or cartridge.

These devices typically consist of a rechargeable battery, a heating element, like a coil, and a pre-filled cartridge that consists of a pre-measured amount of CBD. Users can connect the cart to the battery, and when activated, the pen vaporizes the CBD vape juice in the cart. Simply put your lips to the mouthpiece, inhale, and enjoy!

The rechargeable aspect refers to the battery's ability to be charged via USB cable, meaning once the battery is depleted, you can recharge and reuse!

### CBD Oil Tinctures

[CBD tinctures](#) and oils are liquid extracts of cannabidiol (CBD) derived from the cannabis plant. These wellness products are designed for sublingual (under the tongue) consumption and are popular choices for those looking to incorporate CBD into their wellness routines. CBD tinctures and oils are typically extracted from hemp plants using various methods, such as CO2 extraction. This process separates the CBD molecules from other all-natural compounds, resulting in a concentrated CBD extract. These hemp-derived products are often combined with a carrier oil like MCT oil or hemp oil to help the absorption of CBD into the body.

### CBD Topicals

Simply put, [CBD topicals](#) are CBD-infused products that are applied on minor aches and pains.\*\* These products are designed to be applied directly to the skin and are available in various forms, including creams, balms, salves, lotions, and more. Topicals are formulated to provide localized relief, targeting specific areas of the body where they are applied.

Users often apply topicals to soothe sore muscles and alleviate minor aches and pains.\*\* The topical application allows CBD to interact with the endocannabinoid receptors in the skin without entering the bloodstream, offering targeted benefits without the potential systemic effects associated with other forms of CBD consumption.

### CBD Capsules

[CBD capsules](#) are oral supplements that contain a pre-measured dose of CBD. These capsules offer a convenient and easy way to incorporate CBD into your everyday wellness routine. Since these capsules come in fixed doses, it makes it simple to control and monitor your CBD intake.

For those who dislike the natural taste of CBD oil, capsules offer a tasteless alternative. The CBD is enclosed within a gelatin or vegetarian capsule, masking the flavor. CBD capsules are a popular choice for individuals who prefer a consistent and measured CBD dosage without needing additional tools or dealing with the taste of CBD oils.

### What is CBD?

CBD, or cannabidiol, is one of over a hundred naturally occurring compounds derived from the cannabis plant. Unlike THC, or tetrahydrocannabinol, CBD does not have psychoactive properties and therefore doesn't produce the "high" that comes with THC. This characteristic has made it a favored option for individuals seeking potential wellness benefits from cannabinoids without experiencing a buzz.

CBD interacts with the body's intricate cell-signaling endocannabinoid system (ECS). This system regulates various physiological processes like mood, sleep, appetite, and immune responses. CBD's relationship with the ECS contributes to its diverse wellness benefits, like stress reduction and relief of minor aches and pains.\*\*

### Full spectrum CBD

Packed with over a hundred natural compounds known as cannabinoids, hemp-derived [full spectrum CBD](#) offers a range of wellness benefits. This comprehensive CBD option utilizes the effects of various cannabinoids working together synergistically, promoting a calming effect and helping to soothe minor aches and pains while also relaxing your mind.\*\*

### Broad Spectrum CBD

[Broad Spectrum CBD](#) is a CBD extract that encompasses various cannabinoids and beneficial compounds present in the cannabis plant. In contrast to full spectrum CBD, broad spectrum deliberately excludes detectable levels of THC. This type of CBD undergoes additional processing to minimize THC, resulting in a product that has undetectable levels of the compound.

As broad-spectrum CBD contains undetectable levels of THC, users can enjoy potential cannabinoid benefits without experiencing the psychoactive effects linked to THC. Similar to full spectrum CBD, broad spectrum CBD preserves a spectrum of cannabinoids, including [CBG](#) (cannabigerol) and [CBN](#) (cannabinol), among others. These cannabinoids work synergistically, potentially amplifying the overall therapeutic effects—a phenomenon commonly known as the Entourage Effect.

### THCV

[THCV](#), or tetrahydrocannabivarin, is a cannabinoid found in the cannabis plant. It is a structural counterpart of THC (tetrahydrocannabinol), the more well-known psychoactive compound in cannabis. THCV has a slightly different molecular structure, leading to variations in its effects. While THC is known for its psychoactive properties, THCV may have different effects, including potential appetite suppression and a more moderate psychoactive experience.

### CBG

Known as the "mother" of cannabinoids, this minor cannabinoid, CBG, acts as a precursor to other cannabinoids like THC and CBD. By engaging with the endocannabinoid system, CBG is thought to possess anti-inflammatory and antioxidant characteristics.\*\*

Here's a breakdown of bestsellers from Erth Wellness!

Type of Product	Active Ingredients	Price

### Frequently Asked Questions

**How many soft gel capsules should I take?**

Figuring out your ideal CBD dosage depends on a few different factors. Your body composition and other bioavailable factors can greatly influence your tolerance. It's pertinent to start with the recommended dosage of 25mg-50mg. After trying the lower, 25mg, you can adjust your dosage and find the best amount for you and your desired effects.

**How do I use CBD tinctures?**

Using a CBD tincture is super easy! Before use, give the bottle a good shake to mix the tincture. Use the tincture to measure your desired dosage. Start with a low dose and gradually increase with experience. Lift your tongue and use the dropper to place the desired amount underneath. Allow the tincture to sit under your tongue to absorb, then swallow the remaining mixture. You can expect to feel the effects within 15 minutes to an hour.

**What benefits can I expect from taking CBD?**

CBD has been associated with various potential wellness benefits. From relief of minor aches and pains, to stress relief, and even better sleep.\*\* There's a product that's sure to help what ails you.
