

## Noddle credit report service

# Check your credit score for free

Get on top of your finances and understand how your personal credit score adds up with unlimited premium access to Noddle.

And the best bit? It's on us.

### What is Noddle?

Noddle is a credit report service provided by Callcredit – a leading credit reference agency. Once registered, Noddle users can view their credit score, look back through their credit history and also see what's affecting their current score.

The basic Noddle subscription is free for everyone and doesn't require a monthly subscription cost, but we've teamed up with Noddle to offer our customers unlimited access to the premium package service.

### What do I get with the premium service?

Once you've signed up to Noddle you'll get:

- unlimited access to your credit score and credit history
- free alerts when credit applications or changes are made on your record
- expert advice on how to improve your score, and
- access to the Noddle Web Watch service, which monitors the web and dark web for any attempted use of your personal data.

The Noddle premium package bundle normally costs £45 per year but as a Nationwide customer you can now sign up for free. No charges or monthly fees. Ever.

### How do I sign up?

Registering for Noddle is easy:

#### 1. Visit the Noddle website

Follow the link below then select the 'Get started' button on the Noddle website.

[Sign up to Noddle >](#)

#### 2. Register your details

Enter your details and complete each step of the online registration process.

[Need help? Read the FAQs >](#)

#### 3. View your credit score

Once registered you can view your credit score, see tips on how to improve it and access Noddle's Web Watch service.

If you have any queries or need help during the registration process, you can find out more on the [Noddle help page](#).
