

EPN Rose Stem Cell Clay Face Mask - product copy

Unique and cutting-edge, this Rose Stem Cell Clay Face Mask combines all the well-known benefits of a clay mask with the new biotechnology of stem cell regeneration. It starts by soaking up oil, sebum, dirt, toxins, and dead skin which then allows the rose stem cells to begin their restoration process. And it does it without the usual hard, heavy feel and intense tightening found in many other masks.

Fight signs of aging, dullness and sagging by using this mask to tighten pores, improve skin tone, calm irritation and redness, and reduce blackheads and acne.

The result? Healthier, softer, silkier skin.

DIRECTIONS: Starting with cleansed, dry skin, apply face mask evenly in a thin layer using clean fingers or a clean brush. Avoid the mouth and eyes. Leave on for 10-15 minutes, then rinse off. After rinsing, apply a quality skin moisturizer, such as *Elizabeth Parker Naturals Stem Cell Cream*. Use mask 1-2 times a week for normal skin and 2-3 times a week for oily skin.

CAUTION: For external use only. Can cause eye irritation. In case of contact with eyes, wash thoroughly with water. If irritation continues, consult a physician.
