Your good will
benefits families

We have been helping Kiwi families for almost 60 years and by making a bequest, you are ensuring the sustainability of our organisation so that we can continue to be there for generations to come.

Why support us?

Any bequest, no matter what size, will directly help those living with incurable muscle wasting neuromuscular conditions, and enable us to continue our work within your community. Every dollar helps in our efforts to:

- Provide specialised information about rare neuromuscular conditions to individuals, families, health professionals, schools, and communities
- Offer free counselling and social support to individuals, whānau and carers living with neuromuscular conditions
- Be an independent advocate for the community that we serve
- Advance research and link New Zealanders with treatment opportunities, promoting medicines access and innovative science for these incurable conditions
- Fund life enhancing resources that are not met by government funding

What to do next

Once you have decided that you would like to leave a gift in your will to MDANZ, discuss your wishes with your family and solicitor.

If you choose to leave a gift in your will, the following wording is suggested:

"I give and bequeath free of all duties to the Muscular Dystrophy Association of NZ Inc. (charity registration CC31123) the sum of \$..... (or a percentage, or the residue of my Estate, or a description of the property or asset given) for its general purposes and declare that the receipt of the Chief Executive or other proper officer of the Muscular Dystrophy Association of NZ Inc. shall be a full and sufficient discharge to my trustees."

Hazel, aged 3 years,
MDANZ member

We want to acknowledge you

Thank you for considering a gift in your Will to ensure our vital work continues. If you would like to receive more information, or stay connected with us, we would welcome the opportunity to keep you up to date with our work. Our contact details are over the page.

We appreciate that your Will is a confidential document and that you may not wish to tell us you have arranged to leave a planned gift to our organisation for the benefit of New Zealanders living with neuromuscular conditions.

If this is the case we offer our sincere gratitude in advance. Your actions will make a difference and enrich people's lives. Thank you.

"I'm third generation in my family to be affected by muscular dystrophy and am so confident that the work of the Muscular Dystrophy Association makes a difference, I have updated my own Will to contribute to the future work of the association. You too can make a difference for children like Hazel and whānau like mine."
Ngā mihi, Ronelle Baker – CEO, MDANZ.
