Our Custom Cabinets Origin Story

Hurricane Harvey was a category four storm that hit Texas on August 25, 2017.

The hurricane resulted in massive amounts of damage to homes all throughout Texas. As a result, the demand for custom-remodeled cabinets skyrocketed overnight.

To help return our clients back to the safety of their homes as soon as possible, we decided to build our very own custom cabinet shop.

From years of experience building thousands of cabinets for our custom remodeling clients, we felt prepared to make a difference. To get the ball rolling, our team decided to provide businesses with our signature, hand-crafted custom cabinets to remodel their company.

From that moment forward, our custom cabinets business has continued to grow—the rest is history!

Why Choose EH Custom Cabinets

As the leader of Houston's home and remodeling market, we pride ourselves on creating custom cabinets built to last.

The advanced machine technology, elegant design, and environmentally friendly finish of EH custom cabinets make it the #1 cabinet of choice for:

- offices
- home builders/remodelers
- contractors
- medical facilities

In the last three years, our experienced team has completed over 1,300 remodeling projects and received zero complaints. With customer satisfaction at the cornerstone of our business, we work hard to provide the perfect solution for your working space.
