

Bring Unity Across Campus

Events play an important role in higher education, but department silos can lead to redundancies. In fact, it's common for different departments under a single university umbrella to use their own software to manage events and event space.

Ungerboeck can bridge the gap by helping all departments communicate more effectively and work more efficiently with:

Online Space
Booking

Registration
Management

Catering and
Food Orders

Integrated
Applications

Invoicing and
Billing

Reporting and
Financials

“Ungerboeck allowed us to be more efficient by unifying our lead and sales tracking among our campus and outreach centers.”

- NORTHERN ILLINOIS UNIVERSITY

Streamline Your Old System

Want to See How It Works?

Our experts can walk you through the software for a custom look at how Ungerboeck revamps campus event operations.
