

ForGround by Bayer

Working towards healthier soil.

Generation after regeneration.

The decisions you make today can play a role in supporting the future of your land. ForGround by Bayer offers farmers resources to adopt or expand regenerative agriculture practices, opening the door to new opportunities for your operation.

Join ForGround by Bayer for free and gain access to:

Earn potential revenue through the Bayer Carbon Program.

Savings and discounts on inputs and equipment.

Year-round agronomic support and resources to support new practices.

How the Bayer Carbon Program Works

The Bayer Carbon Program, only available to ForGround members, pays farmers to adopt or expand regenerative agriculture practices.

Potential Revenue

Farmers are paid per practice, not per ton of carbon sequestered, making payment potential more reliable.

\$6

Per acre for no-till, strip-till, reduced-till or cover crops¹

\$12

Per acre for **combining** no-till, strip-till or reduced-till with cover crops¹

Historical Practices Payment¹

Earn up to \$48 per acre (see example below). Fields with practice change on or after August 1, 2019, may be eligible to participate with the potential to receive up to four years of historical practices payment.

Nebraska Farmer

- **Enrollment:** January 2025
- **Practices:** Started no-till & cover crops in 2020
- **Eligible Acres:** 1,000

No-till: \$24 per acre

\$6 per acre x 4 years (2021, 2022, 2023, 2024)

\$48

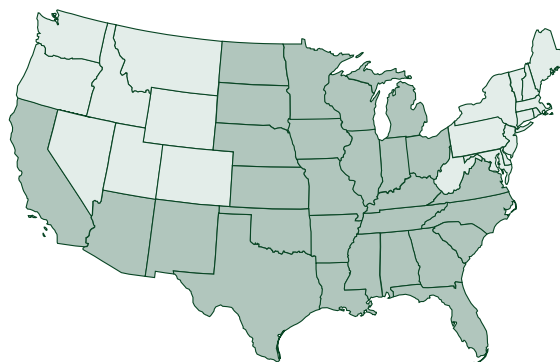

Cover crops: \$24 per acre

\$6 per acre x 4 years (2021, 2022, 2023, 2024)

\$48 per acre x 1,000 acres = \$48,000

The historical practices payment is a one-time payment

preserve.

New for 2025: Reduced-Till

For the first time, **reducing passes and intensity** can potentially make you eligible for the Bayer Carbon Program.

Key Eligibility Requirements:

- Transition from a multiple-pass tillage system using a primary tillage tool, to a **single, full-width tillage system using a secondary tillage or “one-pass” tool.**
- Secondary tillage tools must have an operating depth of **no more than four inches** and at least **30% of residue must remain** ahead of planting. A single pass of a subsoiler/in-line ripper is permitted every other year.
- Field practice change date must be **on or after August 1, 2019.**

Eligible farmers can earn a \$6 per acre reduced-till payment.¹

Discounts on Equipment, Inputs, and Technology

20% discount on one year subscription of BAM Weather Clarity: Pro platform

Account credit up to \$5,000 on a SoilWarrior strip tillage and nutrient placement system

3% discount on a Redekop Seed Control Unit with the purchase of a new unit

Discount code (a \$249 value) to apply to a FieldView™ subscription when enrolling 250+ acres³

\$50/foot discount on select Great Plains Box Drill units

✓ ELIGIBLE

| Secondary Tillage Tools <i>One-Pass System</i> | Number of Row Pass |
|---|--------------------|
| Vertical Tillage Tool | Single |
| Field Cultivators | |
| Soil Finishers | |
| Mulch Finishers | |
| Harrows | |

✗ NOT ELIGIBLE

| Primary Tillage Tools <i>Multiple-Pass System</i> | Number of Row Pass |
|--|--------------------|
| Heavy/Offset Disk | Multiple or Single |
| Disk-Ripper | |
| Moldboard Plow | |
| Chisel-Plow | |
| V-Ripper | |
| High-Speed Disks | |

Nitrogen Management Program²

The Nitrogen Management Program provides farmers an opportunity to earn **\$4 per acre** for applying select nitrification inhibitors and achieving a 5% reduction in the application of synthetic nitrogen in corn fields. Farmers must be part of the Bayer Carbon Program to enroll in the Nitrogen Management Program.

\$4

¹ Payments subject to: (a) verification by Bayer that the selected practices have been performed and, for historical payments, that carbon assets have been generated; and (b) all other applicable terms of the Bayer Carbon-Smart Practices Master Services Agreement and attached program terms.

² Applicable field must also be newly enrolled in Qualifying Regenerative Agriculture Programs, offered through ForGround by Bayer, as of 2024 to participate in the Nitrogen Management Program. Must use qualifying nitrification inhibitor and realize a 5% reduction in synthetic nitrogen compared to 4-year baseline average prior to nitrification inhibitor use. Field must be planted with corn to be eligible for per acre payment. See Bayer Carbon-Smart Practices Master Agreement, and attached program terms, for further details.

³ ForGround by Bayer members who enroll a minimum of 250 eligible acres in a regenerative agriculture program offered through ForGround (requiring implementation of select regenerative agriculture practices) will receive a one-time, \$249 discount code, to be applied to a FieldView™ subscription.

This FieldView™ subscription opportunity is subject to Bayer continuing to offer promotion. Promotion may be discontinued by Bayer at any time in Bayer's sole discretion. Promotion participants must not be in breach of any agreements between Bayer and its affiliates, including Climate LLC, in order to qualify. FieldView™ Drive or FieldView™ Drive Starter Kits are not included in this offer. No commissions will be paid to dealers for subscribers participating in this offer. This offer may not be combined with any other offer for FieldView™ subscriptions.

The Bayer Carbon Program described in this material is subject to the current version of the Bayer Carbon-Smart Practices Master Agreement and attached program terms. The information is to aid in the understanding of the Bayer Carbon Program and does not change or modify the Bayer Carbon-Smart Practices Master Agreement and attached program terms in any way.
