sleep ⊖ number.

Remote Controller

User Guide

Use the controller's keypad
to navigate the screen.

Screen

Hi

Keypad

Home Screen

1. Press **HOME** on keypad to display **HOME** menu.

2. Press **ARROWS** to highlight an option.

3. Press **ENTER** to select one of the below options.

Sleep Number
Designate sleep numbers for each side of the bed (right and left).

Bed Position
Adjust the height of the head and/or foot of the bed.

Sleep IQ
Scroll through your Sleep IQ data including hours slept, average heart and breath rates and more.

System
View detailed information about your Sleep Number bed, including model and serial number and how to access customer service.

Timer
Adjust the under-the-bed light timer.

Exit
Exit Home Screen.
