

BIOMED ENGINEERS

YOU STAY ON THE JOB. DAY IN, DAY OUT.

SO DO WE.

Why waste your time dealing with broken or degraded mounting hardware?

Manufactured to the highest standards using top-quality materials, and guaranteed defect-free for five years from day of arrival, GCX mounting solutions are engineered to outlast several generations of medical devices.

BIOMED ENGINEERS

YOU ALWAYS ADAPT TO NEW SITUATIONS.

SO DO WE.

Why change your mounting equipment every time the hospital upgrades its technology?

GCX modularity means our products can take on new monitors and IT devices as simply as swapping out a bracket. And the built-in channel lets you easily remove—and reuse—mounting arms, accessories, and more.

BIOMED ENGINEERS

YOU EARN YOUR REPUTATION EVERY DAY.

SO DO WE.

You know GCX. Since 1971, we've been designing and building mounting solutions for medical environments exclusively. We always work directly with hospitals—we're the people who sell, implement, and support your equipment.

This gives us uncommon insight into your needs as well as a singular ability to meet them.

BIOMED ENGINEERS

YOU MAKE COMPLEX SYSTEMS WORK SMOOTHLY.

SO DO WE.

How do you ensure your facility's computers, patient monitors, and other IT and medical devices can work together?

The modular, interoperable, and infinitely configurable GCX platform can support virtually every application your facility offers all on a single workstation. As IT and healthcare converge, GCX mounting solutions are ready.
