Prospects Live writing can be found [here](#)

Summary: Experienced video scout, evaluator and programmer looking for a full time opportunity in the baseball industry.

Recent and Relevant Work Experience:

Prospect Writer, Prospects Live (February 2020-present)

- Covering Georgia, as well as select parts of Alabama, Florida and Tennessee as an amateur scouting writer, with live looks articles containing local and relevant out of area draft prospects.
- Produced a Georgia area list with over 20 full scouting reports, as well as honorable mentions for senior signs and likely college bound high school prospects.
- Engaged on our draft coverage as a member of the Prospects Live MLB draft team, helping to create our draft board that features as many as 400 draft eligible prospects.
- Filmed and cut over 100 player videos for viewing on the Prospects Live YouTube channel.
- Developed minor league data leaderboard for the Florida State League and Pacific Coast League in 2022, scraped from public Hawkeye JSON files on Baseball Savant and hosted with R Shiny.

Associate, Infosys Ltd. (October 2020-present)

- Engaging in AWS training in preparation for a potential placement on a cloud project.
- Currently on a cloud project for Vanguard, in which I am engaged in tasks that help maintain applications and infrastructure across many accounts and servers for the company.

Video Scout Associate, Sports Info Solutions, Coplay, Pennsylvania (March 2019-October 2019)

- Scoring Nippon Professional Baseball (NPB) games for our international operation
- Auditing data collected from our MLB and collegiate operations for accuracy
- Updating daily transactions, organizational roster databases and probable pitcher forecasts for clients of our Major League Baseball operation
- Writing analytically leaning articles and scouting reports for the company blog.
 - Utilized outfield run prevention data queried from internal SQL databases to produce a piece on the effect of Coors Field on outfield defense, with box plots constructed in R to demonstrate the range of outcomes for each Colorado outfielder.
 - Wrote over fifteen published profiles on amateur and international players, evaluating their abilities as pertains to future success at the major league level.
 - Used advanced Excel formulas to chart pitch usage, type, and average velocity in outings of the NPB pitchers that I chose to scout this season.

Video Scout Intern, Sports Info Solutions, Coplay, Pennsylvania (March 2018-September 2018)

- Scoring and pitch charting professional and amateur baseball games with specialized charting software.
- Checking, analyzing, and preparing data for the clientele of the company.
- Assisting with the preparation of the 2019 Bill James Handbook.

Video Scouting Intern, On Deck Digital, Hyannis, Massachusetts (June 2017-August 2017)

- Filming and tagging collegiate summer league baseball games in the prestigious Cape Cod Baseball League.
- Capturing and clipping every play from over 40 CCBL games in the 2017 season, with each game having clips from a five camera setup that my partner and I laid out prior to the first pitch.
- Tagged more games than any other intern during the 2017 CCBL season, and also did retagging work for OnDeck using company software.

Education:

Furman University, Greenville, South Carolina

- Bachelor of Arts degree in History, May 2013
